OVER OUR JOURNEY OF THE LAST 29 YEARS, WE HAVE SEEN THROUGH ALL KINDS OF COMPETITION, AND EACH TIME WE HAVE COME OUT AS A TOP PERFORMING PLAYER IN OUR INDUSTRY.

25

Million
Demand for affordable
housing by 2022

Dear Stakeholders,

We are entering a long term phase of economic growth in India, with good evidence of improving performance across agriculture, manufacturing, services, and financial segments of our economy. Despite several constructive interventions, such as the introduction of GST and RERA, the country has exhibited great flexibility to quickly adapt and resume its momentum. With a revival of investment on the demand side, and in manufacturing on the supply side, economic activity should look good for the running fiscal year. With a strong thrust on rural and infrastructure sectors in the most recent Union Budget, rural demand for products, services and homes should rejuvenate and keep the country's economic momentum fuelled.

With this economic backdrop, HFCs should continue to witness robust growth. Key drivers behind this have been the Government's thrust on affordable housing, general recovery in the real estate market, the formalisation of the realty marketplace through RERA, and the stabilisation of GST. As one of the largest Housing Finance companies in India, LIC Housing Finance is well placed to capitalise on such favourable conditions.

Impact of RERA

In particular, the introduction of RERA will bring about a sea change in how business is done in terms of disclosure, transparency, and a strong grievance redressal. This should permeate into a very strong boost of confidence to home buyers, leading to a larger volume of quality transactions. At LIC Housing Finance, we expect the entire sector to move up in terms of superior corporate governance, allowing us to take greater exposure into the sector without increasing our risk exposure. This should also allow us bigger elbow room for being more flexible on pricing our home loans, and thus be more competitive in the marketplace. Furthermore, this gives us an opportunity to improve our relations with a larger number of strong quality developers, and convert them also into deal-sourcing engines.

With both regulatory and taxation policies in the form of RERA and GST in place, property development environment should become stable and make doing business in this space a more standardised process. Calendar 2017 was a pioneering year to the much needed stability of the residential market as seen in the nature of launches, which was led by affordable housing. The sector is likely to continue realigning itself to end users' demands, well into 2018. With RERA in place, the end users' interest in the residential sector will become positive as investments will be legally protected and there would be commitment on timely delivery from developers.

Competition

The last fiscal period has witnessed heightened competitive forces flex their muscles. However, this is not the first time, nor the last time that LIC Housing Finance will face tough competition. Over our journey of the last 29 years, we have seen through all kinds of competition, and each time we have come out as a top performing player in our industry. The market pie continues to be very large and conducive for the sustained growth of the industry. With a strong business foundation, an extensive distribution network, and proven industry expertise, LIC Housing Finance is a warmly respected and trusted financial services company. The Company's proactive investments in technology, diversified resource profile, and wide product portfolio have contributed to LIC Housing Finance earning this reputation. Going forward, our responsiveness, resourcefulness and responsibility will help us ensure a sustainable growth trajectory. In a grossly under-housed market, we are confident that we will uphold our place as a leading Housing Finance Company in India, over the course of time. Moreover, our expanding distribution network, and superior fundamentals and top ratings, will keep us in pole position for years to come.

Outlook

The housing industry is in an decadal structural upswing and in a good place for delivering future growth for LIC Housing Finance. The current urban housing shortage is estimated at 10 million houses, which can only grow. The demand for affordable housing alone could be 25 million homes by 2022, which is four times the entire current housing stock. Finally, with infrastructure status given to affordable housing, developers will have diverse and cheaper sources of funding, including external commercial borrowings (ECBs). Given these fundamentals, the outlook for your Company is strong and positive.

I would like to express my gratitude to our Board of Directors for their expertise and guidance. I am also grateful to all our stakeholders who have reposed their trust in us and given us constant support.

Wish Best Wishes,

Managing Director and CEO's Letter

Mr Vinay Sah
Managing Director and CEO

WE HAVE TAKEN STEPS TO CONTAIN AND REVERSE THE PRESSURE ON OUR NIM, BY ALIGNING OUR LIABILITIES DYNAMICALLY - SO THAT IT CAN RECOVER MUCH BETTER IN AN INCREASING INTEREST RATE SCENARIO.

₹ 49,000 Crore
Total Disbursements for
the Year Crossed

Dear Shareowners,

FY2018 was a year of tectonic changes taking shape. The rules of the game altered for many within the housing sector and the economy at large, and all stakeholders have displayed solid resilience in accepting and adapting to these changes. Nevertheless, with declining interest rates witnessed in the early part of the year, sparking heightened competition and placing pressure on our margins, we still delivered commendable results across all parameters of performance growth.

Overall, disbursements for the year recorded a growth of 18.86% with home loan disbursements at over 20.47%, which was well spread out across geographies. Good growth was witnessed in the western, central, and in some locations in the eastern and southern parts of the country. With respect to metros, we saw strong growth in Mumbai, Pune, Hyderabad and a pickup in NCR as well. The total disbursements for the year touched nearly ₹ 50,000 Crore, showing a growth of 19%, with core home loan disbursement clocking a growth of 20%. In terms of number of accounts, we served more than 200,000 customers during the financial year, totalling over ₹ 49,378 Crore.

We grew our profit after tax by 3.03% in FY2018 to ₹ 1,989.59 Crore. The total loan disbursements for FY2018 stood at over ₹ 49,379 Crore, up by 18.86% YoY. Our loan portfolio stood at ₹ 1,66,363 Crore, with a growth of 15.10% over the previous year.

True to our commitment to a 'zero tolerance policy to NPAs', our asset quality continued to be one of the best-in-class. Gross NPAs at the end of FY2018 stood at 0.78%, while the net NPAs stood at 0.43%. The net interest margins for the year stood at 2.38%.

I am pleased to inform you that the Board has recommended a Dividend of 340% at ₹ 6.80 per equity share.

Margin protection

Post demonetisation, there were a series of reductions in interest rates. As we aligned to the prevailing market forces and reduced our lending rates, our

margins were naturally impacted, placing our NIMs under pressure despite better growth in high yielding loans and lower costs. In the period FY2018, the Company recorded a 32bps contraction in its NIM to 2.38%, despite better growth in relatively high-yielding non-individual loans, and a 28bps fall in calculated cost of funds.

In response to this, we have taken steps to contain and reverse the pressure on our NIM, which can recover much better in an increasing interest rate scenario, by aligning our liabilities more dynamically. We are doing this by introducing short and long-term borrowings in judicious proportions, which is conducive for margin expansion. Our NIM, which was at its lowest in Q3, should see an upside as we continue to take steps for improving it in the coming quarters. In this respect, we plan to explore alternative sources of fund raising, such as masala bonds and external commercial borrowings. Such floating rate assets offer flexibility in times of rate movements with the utmost transparency. Furthermore, to address and diversify our risk adjusted earnings, we are entering and selectively expanding different product categories, such as builder loans, lease rent discounting (LRD), loan against properties, construction finance to top class rated brands. We are also manoeuvring our rates to gradually expand our overall fee income, and its share of our total income. Going forward, we expect NIMs to remain stable.

Asset Quality

Overall, I am pleased to inform you that we enjoy the lowest NPAs and loss rates in the industry, comparable to any of our other peers of similar size. LICHF's asset quality remains largely stable, mainly driven by the strong asset quality performance in Individual Home Loans. In the fourth quarter, there has been a sequential improvement in the overall GNPA as compared to Q3 levels. There have been no further additions of NPAs in our project finance segment, whereas there has been an improvement in asset quality in the retail loan segment. Our GNPA within the retail category continues to be one of the lowest in the sector at about 0.42%. Total provisions including standard assets provisions are nearly 96% of the gross NPA, while we continue to make full efforts in the recovery on the few delinquent accounts in the

project finance side. The Company has made all necessary provisions towards NPAs in the Developer Loans segment. The management is also confident of recovering bad loans in the Individual Home Loan segment over the next few quarters. We do not foresee any major pressure on asset quality/ credit costs.

Outlook

With nearly three decades of experience in the business, we have experienced different industry cycles and have gained the ability to respond to these sectorial movements, which have been evident in our financial results. Despite multiple challenges faced during FY2018, the Company is confident of growing its loan portfolio by around 15% in FY2019. The improved traction in home loans during Q4 FY2018 has continued into the current fiscal. Our "feet-on-street" strength has increased by more than 20% compared to the previous year, which should further drive healthy disbursement growth. The home loan prepayment rate marginally declined in Q4 FY2018, with the expectation that it could further moderate with rates across the system increasing meaningfully. Looking ahead, the Company plans to increase the share of developer financing within its loan portfolio, as growth comfort and funding opportunity have improved post RERA's rollout.

Given that HFCs are expected to register robust growth in the new financial year owing to the government's thrust on affordable housing, recovery in the real estate market and stabilisation of GST, the Company expects a pick-up in volumes as well as the average ticket size in FY2019.

I would like to express my sincere thanks to all our customers, employees, lenders and share owners for their continued contribution and support.

Showing the way in financing affordable housing

With a strong fit to address first-time end-user buyers, we are living up to our core vision of making the dreams of millions come true.

'Housing for All by 2022' is a strategic Government of India initiative, under which a landmark scheme known as Pradhan Mantri Awas Yojana (PMAY) Urban was launched in 2015. Under this scheme, a total of 50 million houses are being targeted to be built by financial year 2022. The Government's budgetary support for these schemes has risen from ₹11,600 Crore in FY2016 to ₹ 29,043 Crore in FY2018.

At LICHFL, we have made a strong beginning in financing home purchases under the PMAY scheme. In India, there is an estimated shortage of around 10 million houses. Today, we have only scratched the surface, and this segment represents a big opportunity to LICHFL. With our entrenched Pan India presence and a distribution access set-up that is aligned to the national PMAY demographics, we are highly suited to penetrate this business opportunity.

LICHFL is already very well positioned with its core middle income households. With 2 new running regional offices and 23 new marketing offices in Tier 2-4 cities being rolled out in FY2019, LICHFL is now getting deeper into India. During the Q4 of FY2018, we saw very good traction in the affordable housing segment with about 12% of our incremental disbursements in the individual category, wherein the PMAY-CLSS loan categories saw ₹ 1,819 Crore out of ₹ 15,136 Crore disbursed.

In FY2018, 21,619 out of our 200,000 new accounts were in the affordable housing bracket. We take great pride in accomplishing this milestone, and plan to expand this significantly further. Going forward, we foresee this to become a focused standalone division within the company, with a significant loan book under this class.

Expanding our Market Presence to Reach Deeper into India

The expansion of our presence gives us strong confidence to chart our future growth, which should exceed the industry growth rate.

We are one of the largest housing finance companies in India, with the widest networks of 249 Marketing Offices, and 23 Back Offices in India, with Representative Offices in Dubai and Kuwait. We serve our customers at their door step through Home Loan Agents, Direct Selling Agents and Customer Relation Associates.

In FY2018, we created two regional headquarters, one at Bhopal and another at Patna, covering states of Madhya Pradesh, Chhattisgarh, Bihar, Jharkhand and Orissa. During the year, these regions clocked growth rates between 30% to 40%. Going forward, we are in the process of moving into the emerging home loan markets. In FY2019, we plan to open 23 new marketing offices in Tier 3-4 locations to tap the massive housing finance opportunities. We believe that our physical presence in these chosen new locations is crucial to establish our brand identity, and to provide superior service to our customers.

During the year, we increased our feet-on-street strength by adding more than 3,638 trained agents to our sales force. To ensure that they remain motivated and updated with the latest developments, the

Company conducted periodic training and educational seminars to enrich their domain knowledge. We are also in the midst of establishing a new vertical which is equivalent to a direct marketing model, which will further assist us in growing our deal origination capabilities.

Other Initiatives:

- ▶ We created a new category of Corporate Agents based on their large size and efficiency, and are offered better incentives and recognition to motivate them further.
- ▶ To foster greater loyalty amongst our agents, we initiated a Club Membership programme that covers their office expenses and training.
- ▶ We hosted a large exhibition in Chennai in which more than 100 builders participated.

Leveraging Technology & Product Innovation to Enhance Value

At LICHFL, we believe that the right technologies give us a competitive edge, enabling us to enter larger markets and expand products more efficiently.

At LICHFL, we invest proactively in technology, convinced that the advantages derived from this would enhance operational consistency and cost effectiveness. The focus on technology has helped us accelerate turnaround time, integrate processes, minimise process duplication and enhance productivity. With our prudent investments, we have created a strong foundation for growth.

During the year, we launched a product called “Advantage 5”, designed to facilitate balance transfers. It ran for a limited period between October 2017 to March 2018, with considerable success.

In FY2018, we started a number of new initiatives in the technology space, especially in the area of cloud convergence and mobile application for channel partners to assist a seamless service delivery to our customers. We also focused on optimising our processes and boosting our workforce productivity and business.

These include:

- ▶ Mobile apps for ease in doing business
- ▶ Customer acquisition through online channels
Example: Online loan application for new loans
- ▶ Enhancing Online Engagement with customers
Example: Online Collection of dues
- ▶ Providing more online services through customer portal
- ▶ Cloud adoption for quick implementation of various application
- ▶ Centralised IT Help Desk
- ▶ Implementation of EDMS and e-KYC are the next big initiatives planned for FY2019

Shri Vinay Sah

Managing Director & CEO

Shri. Vinay Sah has been appointed as the Managing Director & CEO of LIC Housing Finance Ltd (LIC HFL) from 12th April 2017. A Masters in Science (Statistics) from Lucknow University, Shri Sah started his career as a direct recruit officer with LIC of India (LICI) in 1983. Prior to heading LIC HFL, one of the largest housing finance companies in India, Shri. Vinay Sah was Executive Director- Marketing and Product Development, LICI since 2015-16. Under his leadership, LICI created history by achieving its First Premium Income target for 2016-17 in the month of February 2017 itself. During 2016-17, LICI procured First Premium Income (FPI) of ₹ 37,853.87 Crore as against the FPI target of ₹ 31,000 Crore. The market share of LICI in First Year Premium increased to 71.07% from 70.44% in the preceding year. The Corporation launched 9 individual plans during his two-year tenure as in charge of product development department.

Agency recruitment during his tenure registered a growth of 53.40%. The prestigious Million Dollar Round Table (MDRT) agency force witnessed around 50% increase taking the number to nearly 6000. It was during his time that LIC of India (Agents) Regulations, 2017, rescinding the existing LIC of India Agents Rules, 1972, was approved and notified by the Government of India.

In a career spanning over three decades in the Corporation, Shri Sah has successfully handled various portfolios like marketing, IT, personnel and administration. He had the distinction of serving as Zonal Manager in-charge of Western Zone and East Central Zone.

As Zonal Manager in-charge of Western Zone covering the states of Maharashtra, Goa Gujarat, the zone achieved its First Premium target after seven years in 2013-14 and the Zone was Number One in policies, premium volume and policy growth. Western Zone also increased its share in budget contribution from 19% to 22% in premium to the Corporation.

As Zonal Manager in-charge of East Central Zone covering the states of Bihar, Jharkhand and Orissa, the Zone had obtained number one position at the All India level in policies and premium, both on growth and achievement to target during 2011-12 and 2012-13. Management Discussion And Analysis Report

Macroeconomic Outlook

Global economic activity has continued to strengthen and is becoming increasingly synchronised across regions. Global trade is outpacing demand after lagging behind for two years. Oil prices have firmed up again on the edge of a delicate demand-supply balance. Generally buoyant global financial markets have been interrupted by bouts of volatility triggered by several event-specific announcement effects, and most recently by reassessments of the pace of monetary policy normalisation in the US. Renewed fears of protectionism, retaliatory actions and trade wars pose a major challenge to the global economy, with implications for emerging market economies (EMEs), including India, that are participating in open international trade and relying on foreign capital flows to realise their developmental aspirations.

After languishing for five consecutive quarters, economic activity in India is quickening. Growth is strengthening and several elements are coming together to nurture this nascent acceleration: expectations of a record foodgrains output; strong sales growth by corporations; depleting finished goods inventories; and restart of investment in fixed assets by corporations pointing to renewal of the capex cycle. Several services sectors, including the information technology sector in terms of its international competitiveness, have shown resilience. These are some of the developments that support brighter prospects for the Indian economy in 2018-19. A significant development has been that this time around, the step-up in growth is propelled by a revival of investment on the demand side and manufacturing on the supply side. This outlook will be lifted by tailwinds from demonetization and implementation of Goods and Services Tax (GST).

The path of inflation will likely be influenced by effects of the increase in house rent allowances (HRAs) for central government employees, which is purely statistical and has to be looked through to gauge true inflation developments. As this effect wanes, inflation could moderate in the remaining part of 2018-19 from an upturn in Q1 under the baseline assumptions.

Headline Consumer Price Index (CPI) inflation reached a peak of 5.2 per cent in December 2017 (4.9 per cent, excluding the estimated impact of HRA for central government employees), reflecting an unseasonal spike in the prices of vegetables and the full impact of the central government implementing the 7th Central Pay Commission's (CPC's) HRA award. The delayed setting in of the seasonal food prices moderation took down headline inflation to 4.4 per cent in February (4.1 per cent, excluding the estimated impact of HRA for central government employees). It is likely that this softening will keep the reading for March benign before it reverses in April. The incidence and strength of this reversal will condition monetary policy responses in 2018-19. Taking into account the initial conditions, signals from the forward looking surveys and estimates from structural and other models, CPI inflation is projected to pick up from 4.4 per cent in February 2018 to 5.1 per cent in Q1:2018-19 due to unfavourable base effects

and then moderate to 4.7 per cent in Q2, and 4.4 per cent in Q3 and Q4, with risks tilted to the upside. It may be noted that the direct impact of the increase in the HRA announced by the Central Government fades away fully by December 2018. The 50 per cent and the 70 per cent confidence intervals for inflation in Q4:2018-19 are 3.2-5.9 per cent and 2.5-6.7 per cent, respectively. Excluding the estimated impact of HRA for central government employees, CPI inflation would pick up from 4.1 per cent in February 2018 to 4.7 per cent in Q1:2018-19 and then moderate to 4.4 per cent in Q2, Q3 and Q4.

Going forward, economic activity is expected to gather pace in 2018-19, benefitting from a conducive domestic and global environment. First, the teething troubles relating to implementation of the GST are receding. Second, credit off-take has improved in the recent period and is becoming increasingly broad-based, which portends well for the manufacturing sector and new investment activity. Third, large resource mobilisation from the primary market could strengthen investment activity further in the period ahead. Fourth, the process of recapitalisation of public sector banks and resolution of distressed assets under the Insolvency and Bankruptcy Code (IBC) may improve the business and investment environment. Fifth, global trade growth has accelerated, which should encourage exports and reduce the drag from net exports. Sixth, the thrust on rural and infrastructure sectors in the Union Budget could rejuvenate rural demand and also crowd in private investment.

Global financial markets generally remained buoyant through the second half of 2017, boosted by the improving macroeconomic outlook and the gradual normalisation of the US monetary policy. While equity markets surged on a renewed appetite for risk, currencies were lifted by the weakening of the US dollar since November. Yield curves in bond markets tended to flatten with still subdued inflation expectations, and corporate credit spreads narrowed. In 2018, however, market sentiment has been dampened by accelerating wage and employment growth in the US, triggering fears of a faster pace of interest rate increases. Longer term interest rates have been hardening tracking US yields, but also in response to country-specific developments - oscillating geo-political developments and more recent fears of a trade war in response to the US tariff announcements have heightened uncertainty considerably. Volatility has saturated various market segments, with equity and bond market sell offs spilling across geographies. Currency markets have been hit by the turbulence of safe haven flights that are rotating capital flows among emerging economies and sporadically strengthening the US dollar. Financial markets have remained on edge in recent weeks.

In domestic financial markets, various segments have exhibited diverse movements. While money markets remained laden with the overhang of liquidity that characterised the first half of the year, surplus liquidity has gradually receded and turned into deficit since February. As recourse to primary liquidity became pronounced from mid-December, overnight interest rates have begun 'muddling' within the LAF corridor

Management Discussion And Analysis Report

more frequently. Little farther out on the term curve, however, interest rates on Treasury bills (T-Bills) and discount rates on commercial papers (CPs) are hardening as markets sense that liquidity conditions are balancing out. In bond markets, long-term yields rose unrelentingly from August on apprehensions of excessive issuances, reactions to fiscal slippages following the announcement of the Union Budget for 2018-19, and rising inflation expectations peaking in early March. A spike in international crude price and rise in global interest rates contributed to the hardening of yields. Thereafter, yields declined sharply on favourable inflation print for February 2018 and in response to the lower than expected borrowings indicated by the Government in the issuance calendar for H1:2018-19. Corporate bonds also rose in sync, although credit spreads moderated with the improving outlook on growth.

Until the Budget announcement, equity markets scaled new peaks, riding on aggressive buying by domestic mutual funds and foreign portfolio investors. Thereafter, corrections are occurring with bearish sentiment being more freely expressed in the equity market. The Union Budget proposal to levy long-term capital gains tax (LTCG) of 10 per cent on gains exceeding ₹ 1 lakh from sale of equity shares, sharp increase in US bond yields, the announcement of protectionist tariffs by the US and revelations of fraud in some domestic banks have impacted equity markets adversely since the beginning of February. The foreign exchange segment has moved in tandem; while the rupee had gained against the US dollar on the back of sustained portfolio inflows with the ebullience in equity markets, sentiment had reversed after the Budget announcement and portfolio outflows picked up from mid-February as global cues weighed on the rupee.

In the credit market, activity is slowly gaining strength, despite the overhang of corporate loan delinquencies. The total flow of financial resources to the commercial sector in 2017-18 was much higher than that during the previous year, primarily due to an increase in non-food credit by banks. Credit demand surged in the second half of 2017-18 - though at divergent pace across bank-groups - with the growth pick-up spreading across sectors as underlying macroeconomic conditions improved. Both deposit and lending rates eased up to November as the cumulative reduction in the policy rate of 200 basis points since January 2015 was fully transmitted to new loans.

HOUSING FINANCE INDUSTRY - STRUCTURE & DEVELOPMENT

Housing is an important sector for any economy as it has inter-linkages with nearly 269 other industries. The development of housing sector can have direct impact on employment generation, GDP growth and consumption pattern in the economy. To help develop housing in the country, there is need to have a well-developed housing finance market.

The demand for housing is increasingly being made by individuals and households given the increasing level of income and prosperity. The supply of houses have to come

from builders, developers and construction companies scattered widely across the country, both in the private and public sector when examined in the context of demand and supply of housing units, especially in the face of scarce land in the urban areas.

In India, housing finance market is very complex. The government, both at centre and states, is a facilitator and is assisted by two regulators, Reserve Bank of India (RBI) and National Housing Bank (NHB). The housing finance market is dominated by commercial banks, both domestic and foreign. In addition, there are cooperative banks and housing finance companies, self-help groups, micro-finance institutions, and NGOs. The RBI regulates commercial banks and partially cooperative banks (which are mainly governed by the State Governments under State Cooperative Acts) while the NHB regulates the housing finance companies. The others are not regulated by any authority in the country.

The need of long term finance for the housing sector in India is catered by scheduled commercial banks (SCBs), financial institutions, cooperative banks, regional rural banks (RRBs), Housing finance companies (HFCs), agriculture and rural development banks, non-banking finance companies (NBFCs), micro finance institutions (MFIs), and self -help groups (SHGs). The largest contributor to housing loans by virtue of their strong branch network and customer base are SCBs, accounting for the major share of housing loan portfolio in the market followed by HFCs.

It is estimated that HFCs manage over ₹ 6 lakh Crore out of approximate India's housing loan portfolio of ₹ 15.1 lakh Crore. As established HFCs grew, lending to retail borrowers for several years, they craved a share of the big boys (i.e. the banks) business pie. They created products to suit big ticket borrowers' needs - loans against property (LAP), corporate and developer loans, lease rental discounting. LAP eventually became the most effective weapon to bulk up assets. Most mid and large sized HFCs lent cautiously at the beginning, but when more players jumped in, HFCs shifted from the restrictive tenets of prudent banking. The LAP book was 38% of the total non-housing loans for the housing finance sector last fiscal.

Affordable housing numbers are astounding, so much so that they present themselves as an opportunity for moneyed entities to throw their nets in. As per a recent RBI report, the industry (including banks) disbursed housing loans amounting to ₹ 42,990 Crore in the (upto) ₹ 10 lakh borrower's category last fiscal.

HFCs are expected to register robust growth in the new financial year owing to the government's thrust on affordable housing, recovery in the real estate market and stabilisation of GST. Assets Under Management (AUM) of housing finance companies (HFCs) grew at 24% last fiscal, even as non-performing assets (NPAs) edged up 30 bps and profitability remained stable. An analysis of 20 HFCs accounting for over 90% of sector AUM, indicates, in the home loan segment, AUM

Management Discussion And Analysis Report

rose 22% last fiscal, which translated into a compound annual growth rate of 20% over the past 3 years. Consequently, the market share of HFCs in the home loan segment has increased by around 100 bps to 43%. Primarily, due to the ability of HFCs to tap the massive opportunity in affordable housing, and second is the slower credit growth at banks providing HFCs the room to ramp up faster and continue gaining market share.

The non-housing segment (loan against property, developer funding, corporate loans, etc.,) remains the fastest-growing segment for HFCs, racking up 30% growth last fiscal. Overall, HFCs are expected to continue doing well with home loan AUM seen growing at 18-20% per annum. Housing shortage in the affordable segment, regulatory facilitation, entry of a large number of HFCs with sharp focus on the affordable segment will be the drivers.

As for asset quality, the overall picture remains comfortable, but there has been an uptick in delinquencies. Gross NPAs of HFCs stood at around 1.1% as on 31st March, 2018, compared with 0.8% a year back. While, the overall sectoral gross NPA trend has been reasonably steady, some HFCs focusing on the affordable housing segment have shown an above-average increase in delinquencies with gross NPA at 4-5%.

Leading rating agency, CRISIL believes two-year lagged gross NPAs are a better indicator of asset quality in mortgages because of their long tenures. That number stood at 1.6% on 31st March, 2018, or 40 bps more than on 31st March, 2017. The uptick in slippages was expected given increasing delinquencies in the loan against property segment, sharper focus on low-ticket-size home loans, and increased lending to the self-employed customer segment. CRISIL had earlier highlighted that delinquencies in these segments tend to be higher than the salaried segment.

Profitability of HFCs was stable last fiscal with return on assets (adjusted for one-time gains) of around 1.9%. However, going forward, net interest margins could get compressed owing to increase in funding costs and intensifying competition. Consequently, there could be some pressure on profitability in the coming quarters, particularly in the home loan segment. Control over fund costs and operating expenses will define the profitability of HFCs.

Looking ahead:

Housing Finance Companies (HFCs) are expected to register robust growth in the new financial year owing to the government's thrust on affordable housing, recovery in the real estate market and stabilisation of GST, as per the report of the leading rating and research firm ICRA. Housing credit growth is likely to pick up further, supported by the improvement in primary sales, and additional GOI's thrust on the affordable housing segment, which is likely to expand the market. HFCs and the non-banking finance companies (NBFCs) are likely to benefit from this thrust on the relatively high growth segments like affordable housing and self-employed customers, and their comparatively superior service levels.

As per ICRA banks' housing credit growth is expected to pick upto 16 – 18% and that of the HFCs to be in the range of 20 – 23%, leading to an overall market growth of 18 -20% in the financial year 2019. The HFCs operating in the affordable housing space have reported better performance on home loans. Their growth was supported by a gradual increase in activity in the affordable housing segment and the improved borrower affordability supported by lower interest rates and capital subsidy through the credit linked subsidy scheme.

The State owned project management consultancy firm NBCC is planning to build more than 1 lakh affordable homes on its own land parcels, plots owned by the government and public sector undertakings. The Company is looking to build these homes over the next five years to support the government's stated objective of Housing for All by 2022. These affordable housing projects would offer residential apartments with prices starting from ₹ 10 lakh to ₹ 60 lakh depending on the location of the project. NBCC itself has over 200 acres of land parcels across the country in the cities such as Alwar, Jaipur, Faridabad, Kochi, Patna, Kolkata, Bhubaneswar and Coimbatore, that would be utilised to build these houses apart from land to be allotted by the government. In addition to this, the NBCC has initiated discussion with many of 25 public sector undertakings to execute such affordable housing projects on their surplus land parcels in locations that include Delhi, Gurgaon, Pune, Hyderabad, Nainital and Raigad near Mumbai. Affordable housing has been attracting attention from realty developers and financiers over the past few quarters and the pace of development is getting faster. The government's decision to grant infrastructure status to affordable housing in the Union Budget for FY 2017-18 has rejuvenated the interest in this segment in a significant way. The move is allowing developers of these projects get access to institutional funding with better terms. The government's efforts to enhance supply of affordable housing units by offering tax incentives to realty developers has started yielding results. More developers and bigger brands, hitherto known for their premium housing projects, have also forayed into this segment.

Under the credit rating subsidy scheme of the PMAY, an interest subsidy of 6.50 percent has been announced for the Economically Weaker Section (EWS) and low income groups who have an income of ₹ 2.65 lakh per annum. For the middle income population, an extension of the credit linked subsidy scheme was also announced. Here, people with an annual income of ₹ 6-12 lakh will be assisted with an interest subsidy of 4 percent for a 20 year loan of ₹ 9 lakh and those with an income of ₹ 12-18 lakh will get an interest subsidy of 3 percent.

Competition

With repo rate at 6.0 per cent, the home and auto loans, among other loans set to become cheaper. From the perspective of the home-buyers, this definitely has a multiplier effect on the psychology, which had been subdued for quite some time due to high interest rates and trust deficit within the sector. The industry has hence given its thumbs-up to the RBI's gesture. On the back of moderating inflation levels, controlled fiscal

Management Discussion And Analysis Report

deficit and cautious economic sentiments, the RBI's decision to pare key interest rates in its latest monetary policy review was largely expected by the industry. The rate cut is likely to help lower borrowing costs and support growth further in 2018-19. For the real estate sector, this is particularly critical. It is expected that this benefit will be completely transferred to the borrowers, which will result in lower lending rates, thus reviving housing sales.

The Housing Finance Industry is one of the most keenly competitive segments of the economy, with the banking sector having a significant presence. Banks decide on their rates based on the 'marginal cost of funds'. In other words, banks have to routinely calculate their cost of funds and any change has to be passed on to borrowers by revising their benchmark. This new formula-based benchmark is called the marginal cost of lending rate (MCLR). MCLR is a benchmark rate which reflects the cost of funds for a particular tenure.

Banks have an edge over housing finance companies due to access to relatively low cost funds raised through deposits. Therefore, with every drop in interest rate as envisaged in coming months, propelled by Banks, the Housing Finance Companies will be forced to follow the suit, else borrowers of Housing Finance Companies would be at a disadvantage where interest rate matters. The competition will not be only on cheap loans but it will trigger innovation in housing finance products and force improvement of customer services.

It can be noted that banking regulator Reserve Bank of India (RBI) has been flagging concerns on retail loans being the panacea for banks, which are saddled with reverses on the corporate lending side. The RBI in its communication to banks has been cautioning that retail loans are not risk free segment and that they should not see it as grand panacea for their problem-riddled corporate loan book. There are risks in retail loans too and that it should be properly assessed, priced and mitigated.

However, Housing Finance Companies with a dedicated focus on the industry and better understanding of the underlying real estate markets stand on a better footing when it comes to understanding the needs of the customers as also assessing the risks in the industry.

Even after the increased focus on retail lending for a decade, banks and other lending institutions have been able to tap only into a third or 72 million of the estimated 220 million credit-eligible consumers as per report of CIBIL which leaves financiers with 150 million consumers who are eligible for credit but are untapped. Of the 150 million includes those who qualify the lending criteria from the age and income perspective and also those who may have availed some credit facility in the past but are currently inactive or dormant. This segment promises retail lending opportunities for the lenders through products such as housing loan, personal loan, loan against property, consumer durable loans and credit cards which in turn would give boost to the economy. This untapped

market presents an opportunity for sustained, prudent growth for lenders over the next five years and beyond. As more consumers reach adult age and have disposable income, they will increasingly seek credit to help finance purchases of housing, vehicles and household goods.

Opportunities

As most of us are aware, 'Housing for All by 2022' is a Government of India initiative under which, the erstwhile Indira Awas Yojana was renamed as Pradhan Mantri Awas Yojana Grameen and another scheme as Pradhan Mantri Awas Yojana Urban was launched in 2015. Under both these schemes a total of 50 million houses were targeted to be built by financial year 2022. The government's budgetary support for these schemes has risen from ₹ 11,600 Crore in FY 2016 to ₹ 29,043 Crore in FY 2018. In India, there is an estimated shortage of around 4 Crore houses (urban and rural). In addition, population growth of 1.3 percent per annum, favourable demographics, 'nuclearisation' of families, migration to urban areas, fiscal benefits, rising income / aspirations all could lead to another one Crore per annum demand for houses. Affordability to buy houses has increased over the past three years (especially in urban areas), even as property prices have remain flat, incomes have risen and mortgage rates have fallen by around 250 bps from five-year peak leading to 15 percent reduction in EMI payments.

The middle-class Indian living in cities has long been dreaming of buying his / her own home and usually, ends up striving to realise this dream. Affordability is a major hindrance that prevents them from attaining the goal. Luckily, in the 2018-19 union budget, the government of India has now made this struggle easier by setting up the Affordable Housing Fund (AHF). The AHF is huge step as the government will provide each buyer linked credit worth ₹ 1 lakh to ₹ 2.30 lakh; this loan will be provided at an interest rate of 6.5 percent against the current market housing interest which is hovering around 8.35% to 8.70%. The government has allowed withdrawals from EPFO to the extent of 90 percent of the amount for housing in case there is a group of eight other people who are doing so for a house in the same society. Finance Minister assured that 31 lakh affordable homes will be built for the common man residing in urban areas in his 2018-19 budget speech. The AHF has been set up under the National Housing Bank (NHB), which will play a key role in identifying and distributing these subsidies in the form of credit and lowered interest rates. Until now, the private developers would look at affordable housing as a job of the Delhi Development Authority (DDA) in Delhi or the Maharashtra Housing and Development Authority (MHADA) in Maharashtra. But now, post the announcement and the realisation that luxury homes have not gained them enough profits, they are now turning to the middle-income consumer.

In its effort to make 'Housing for All by 2022' a reality, the Centre proposed to ease green norms for the building and construction sector, where projects upto 50,000 sqm will not require prior 'environment clearance'. The environmental ministry in third week of March 2018 issued a draft notification

Management Discussion And Analysis Report

increasing the threshold of built-up area for getting this relief from 20,000 to 50,000 sqm. Such projects will however, have to fulfil 'environment condition' through self-declaration and certification while seeking permits from local authorities. The proposed move would streamline permission for building and construction sector to fulfil its objective to make available affordable housing to weaker sections in urban areas.

The regulatory relaxations announced by the Central Government have given a leg up to startups in the affordable housing finance segment, opening up both supply and demand as well as making it attractive for investors. While in the last year's budget, the government accorded infrastructure status to affordable housing, in this year's budget (i.e. budget for FY 2018-19) announcement, finance minister announced the setting up of an Affordable Housing Fund in the National Housing Bank to boost the fund flow. The government had also extended the benefits of the interest subsidy upto ₹ 2.6 lakh on home loans under the Pradhan Mantri Awas Yojana to boost affordability and reach a wider consumer base. The affordable housing segment is expected to continue to drive the real estate sector in 2018 with several developers and institutional funds eyeing opportunities in this space led by better returns. The end-user demand in this segment along with the government's thrust through incentives such as granting infrastructure status is ensuring a rising appetite for such projects across the country.

The established developers are expected to expand their scope of business categories. For instance, some branded developers catering to the ultra-luxury segment, expanded their focus on compact, efficient, boutique homes for high and mid-level income category of buyers, a trend that is expected to gain further momentum. With both regulatory and taxation policies in the form of RERA and GST in place, property development environment will be stable and make the business a more standard process.

Calendar 2017 was a pioneer to the much needed stability of the residential market as seen in the nature of launches, which was led by affordable housing. The sector is likely to continue realigning itself to end users' demands well into 2018. With RERA in place, the end users' interest in the residential sector will become positive as investments will be legally protected and there would be commitment on timely delivery from developers.

With only the affordable housing segment seeing a rise in launches in 2017, the new unit launches in residential saw a decline of 35%. The total estimated new residential units were around 74,000 across India's top eight cities with Mumbai constituting nearly 31% of these, followed by Pune with 15% of all launches. Affordable housing saw a y-o-y growth of 6% with Mumbai leading the trend as per Cushman & Wakefield report. With interest rates at almost its decade low level and PMAY benefits, the affordable housing would continue to provide the much needed momentum to realty sales in 2018 as well. Even as developers grappled with the impact of business

fundamentals such as RERA and GST over their business, the government's clarity on the definition of affordable housing and its benefits led to this growth. The velocity of project cash flows is much higher in affordable housing compared to conventional real estate as most units are sold out long before they are constructed. This translates into better risk adjusted returns for investors.

Benefits of Buying Property

1) Tax Benefit

Tax deduction on home loan principal amount can be claimed under Section 80C with a limit of ₹ 1.5 lakh – stamp duty and registration charges can also be claimed under Section 80C. However, it needs to be claimed in the year in which these expenses are paid. Furthermore, one can claim tax deduction under Section 24 of upto ₹ 2 lakh on home loan interest, whereas first time home owners can also claim deduction of upto ₹ 50,000 under the newly added Section 80EE.

2) A good investment option

If a person buys property, good returns are guaranteed, whereas there is no value for the money if one pays each month as rent.

3) Security

Having a roof over one's head is a basic necessity for any human being and hence, owning a house provides lifetime security.

Threats (bottlenecks)

Unavailability of land, delays in project approvals and low floor space index norms are constraining the supply in certain markets, thereby adversely affecting the ability of prices to settle at a more rational level.

Residential real estate is defying the conventional wisdoms of economics where a constant price hike is not benefitting the real estate companies either. With pressure on both, the demand and supply side, residential real estate has gone into a vicious cycle of ever increasing cost, falling demand and liquidity crunch, bureaucratic delays, labour shortage and legal wrangles, have contributed to the holding up of projects and consequent slowing down of sales.

Average Gross NPAs of HFCs are hovering at 1.2% levels – a sharp spike from a healthier 0.5% to 0.65% maintained till last year. By end of the September quarter 2017, close to ₹ 10,500 Crore of loans disbursed by HFCs have turned doubtful as per data from leading rating agency. Are HFCs sitting on a powder keg? No one wants to hazard a guess just yet but the signs are ominous. Bigger players remain relatively insulated thanks to their heft and borrowing cost management. Many have sufficient capital and strong promoters (bank or corporate houses). Smaller players are vulnerable and could be in dire straits if their non-performing assets NPAs turn credit losses. They maintain a narrow capital base and have very little financial support.

Management Discussion And Analysis Report

The stress is seen more in the affordable housing segment, especially low ticket size borrowers. Smaller players of HFCs have not been able to predict markets without even properly assessing property values. A few have also given loans at high loan-to-value (LTV), which leaves lenders with slim collateral cover.

Stress Points in HFCs

- Reckless non-housing loan lending. High LAP, builder loans and Lease Rental Discounting;
- Slump in rural economy post demonetisation;
- Lending in untested markets has backfired for some HFCs;
- Excessive lending to non-salaried, low income earners with unpredictable cashflows;
- Some cases of 'dummy borrowing' and document fudging by developers in affordable housing segment;
- Small HFCs have low capital base and their cost of funding is high;
- GST implementation has impacted earning capabilities of low-income, non-salaried borrowers.

The RBI report dated January 2018 has highlighted concerns on rising NPAs in lower ticket loan categories. Among all slabs, loan upto ₹ 2 lakh has seen the highest NPA level. NPA position in this bracket has surged from 6% in 2015-16 to 8.6% last fiscal. Demonetisation has impacted low income earners severely. RERA implementation has stalled several affordable housing projects, as a result people have not got their homes and many have stopped paying EMIs.

Segment wise Reporting

Segment has been identified in line with the Accounting Standard on segment reporting, taking into account the organization structure as well as the differential risk and returns of these segments. The Company is exclusively engaged in the Housing Finance business and revenues are mainly derived from this activity.

Outlook

The count of Housing Finance Companies (HFCs) in India is double that of domestic banks, and is still climbing. That the government is intensifying its focus on 'Housing for All' by 2022 with concessions including lowering of Goods and Service Tax rate and paying out subsidies promptly, has enthused the industry to play ball. The National Housing Bank, regulator as well as the refinance company is stepping on the gas by licensing as many as 28 housing finance companies in the past two years, and 13 are waiting in the wings.

One industry that has huge scope to grow in India is housing and financing it. It not only enables a roof over millions of families, but generates employment that is in short supply in a world that is increasingly mechanised. India's urban population is forecast to reach 58.3 Crore by 2030 from 42

Crore now. The current urban housing shortage is estimated at 1 Crore houses, which could only grow. At the national level, the demand for affordable housing alone could be 25 million homes by 2022 which is four times the entire current housing stock, India Ratings forecasts. It would be driven by government's financial and policy thrust, regulatory support, nuclearisation of families and increasing affordability. The industry is growing at 14% to 15% every year consistently. The affordable housing segment topped the charts in overall home bookings in the first half of financial year 2017-18. Homes priced at less than ₹ 40 lakh, which are defined as affordable, constituted 62% of total new launches. About 28% was in the ₹ 40 lakh to ₹ 80 lakh range, data from NHB shows.

In any economy, housing is the fulcrum of growth as well as employment generation and that is more so in developing economies. There is assured demand as well as profits. Lending to housing in India has been lucrative with low delinquencies since most hang on to their homes even during times of difficulty. For banks, home loans constitute about half their retail portfolio. But with housing loan demand in the top 15 cities plateauing out due to astronomical prices, the rush to affordable home lending has gathered pace. Eagerness to capture market share could lead to compromises on underwriting that could blow up.

There has been a real change in the Indian property sector since the past two years. Be it implementation of RERA, Goods and Service Tax, have contributed to improvement in transparency. It is a big game changer. Indian real estate has attracted \$44 billion worth FDI across all assets classes since 2006 according to JLL India. Several foreign institutional investors are keen on investing in India and global institutional investors such as Blackstone Group, GIC, Canada Pension Plan Investment Board (CPPIB), Brookfield Asset Management, Goldman Sachs and Qatar Investment Authority have already been investing aggressively in Indian real estate assets over the past few years. While these entities had earlier shown interest in investing in commercial real estate, they are also looking at other real estate segments such as residential, retail and hospitality. In the backdrop of an ongoing transformation in business environment, Indian real estate is witnessing a robust rise in investment inflows as both foreign and domestic institutional investors are infusing more funds into the sector. Globally, there is lot of allocation being made towards real estate. Among the emerging markets, India stands a number one choice as the economy is growing at 6.5% to 7.0%. Indian real estate sector is projected to reach a market size of \$180 billion by 2020, a sharp rise from \$126 billion in 2015.

In view of the infrastructure status given to affordable housing, developers will have diverse and cheaper sources of funding, including external commercial borrowings (ECBs). It would lower the borrowing cost of developers, who could, in turn, pass on some of the savings to the buyers, thus spurring demand. Affordable housing is the only segment in housing sector to get 100% tax exemption for developers. Lower risk weights on loans for affordable housing, tax exemptions

Management Discussion And Analysis Report

for developers sitting on completed unsold inventory, amendment of Section 80-IBA for relaxing the condition of period of completion of a project for claiming deduction to five years from three years, etc, funding incentives and central assistance for affordable housing projects have all led to the belief of a decadal structural upswing in housing industry growth.

Housing sector has multiple sector linkages. The myriad stakeholders in this opportunity include companies from housing finance, cement (two-thirds of the cement demand comes from housing), lighting/fan suppliers, real estate developers, plywood manufacturers, moulded furniture players, tiles/sanitary ware companies, switchgear manufacturers etc. Affordable housing can provide a thrust to the economy by way of capital investment to the tune of ₹ 1 lakh Crore to ₹ 1.25 lakh Crore per annum incrementally, generate 27 – 34 million jobs, and have a direct and indirect impact on other sectors – translating into 1.5 percent of the GDP.

Risks and concerns

Risk is inherent part of the Company's business. Effective Risk management is critical to any Housing Finance Company for achieving financial soundness. In view of this, aligning Risk management to Company's organizational structure and business strategy has become an integral part in Company's business.

The management has to base their business decisions on a dynamic and integrated risk management system and process, driven by corporate strategy. The Company is exposed to risks in the course of their business such as credit risk, interest rate & market risk, liquidity risk and operational risk. LICHFL's strategy in optimizing business opportunities within the aforesaid constraints is assisted by a robust asset liability management.

The objective can be summarized as below:

- Reduce potential costs of financial distress by making LIC Housing Finance less vulnerable to adverse movements in liquidity, interest rates, exchange rates (wherever applicable).
- Create a stable planning environment, by ensuring that the business plan is not adversely impacted during the financial year due to any adverse liquidity situations, interest rate and currency fluctuations by using tools such as time-bucket wise liquidity statements, duration gap and Forex exposure reports. In other words, it is aimed at ensuring that the Net Interest Income (NII) is not adversely affected irrespective of adverse changes in the above risks as far as possible.

► Credit Risk

Credit risk is the risk associated with the borrower defaulting on its obligation as and when it is due. A default by the customer is recorded as Non-Performing Asset (NPA) in the Company's books if the customer is not

able to settle the dues within 90 days of due date. Also referred to as Default Risk, this risk is usually borne by the lender and is one of the most critical which can impact a financial institute whose main business is lending.

In case of LICHFL, the Company advances money in the lump sum to collect it over the forthcoming years by the way of Equated Monthly Installments (EMIs). Selection of right borrowers is the first and the most crucial step of this process. The Company follows a rigorous methodology while selecting the borrowers. The Company scrutinizes the documents carefully and the decision making is based on several parameters. After sanctioning the loan, monitoring of the accounts is done. If any irregularities are found, prompt action is initiated.

As Credit Risk is one of the major risk faced by the Company, the Standard Operating Procedures (SOP) document, clearly delineates the guidelines on credit appraisal, legal appraisal, technical appraisal, verification, valuation, documentation, etc. The same is reviewed periodically and, if need be, is revised in order to keep the procedures up-to-date.

► Market Risk

Market risk is the risk of losses in positions taken by the company which arises from movements in market prices. Any item in the balance sheet which needs re-pricing at frequent intervals and whose pricing is decided by the market forces will be a component of market risk. There are items in the Company's balance sheet which exposes it to market risk like Housing loans at floating rate, loans to developers at floating rate, Non-Convertible Debentures (NCDs) with options, bank loans with option, Foreign Currency Bank Loans, Coupon Swaps, etc. This risk can be divided into following two types:-

■ Interest Rate Risk

Interest Rate Risk refers to the risk associated with the adverse movement in the interest rates. Adverse movement for LIC Housing Finance Limited would imply rising interest rates on liabilities and falling interest yields on the assets. This is the biggest market risk which the company faces. It arises because of maturity and re-pricing mismatches of assets and liabilities. In order to mitigate the impact of this risk, the Company tracks the composition and pricing of assets and liabilities on a continuous basis. For the same purpose, the Company has constituted an ALCO Committee which actively monitors the ALM position and take appropriate action to avoid risk.

■ Foreign Exchange Risk

Foreign exchange risk (also known as FX risk, exchange rate risk or currency risk) is a financial risk that exists when a financial transaction is

Management Discussion And Analysis Report

denominated in a currency other than that of the base currency of the company. It arises because of an unfavorable movement in the exchange rate of the denomination currency with respect to the base currency. Depending upon the magnitude of the movement, the cash flows of the Company can be impacted.

In our case, the amount of foreign currency liabilities forms a minor part of overall liabilities and is suitably monitored.

► Liquidity Risk

Liquidity Risk implies the risk of not having sufficient funds to make good the liabilities. This very risk has been the cause behind closure of number of banks in the international markets in the past. Various situations in which liquidity risk may arise include higher than estimated disbursements, stress on systemic liquidity due to CRR hikes, higher government borrowing program, advance tax outflows, etc. Therefore it is imperative to anticipate the net cash outflows correctly, as well as have a contingency plan in case of any unforeseen outgo of funds. Another aspect of liquidity management is avoiding hoarding excess money than what may be required as the same would result in sub-optimal returns on the money available to invest. So every institution has to strike a balance between the two positions and manage the liquidity position actively.

In case of LIC Housing Finance Limited, the Company has to continuously borrow money from the market in order to carry on the business operations. This borrowing depends on the market liquidity conditions and as the liquidity conditions change in the market very rapidly, the Company may not get required funds at times. In order to avoid that situation, a thorough analysis of expected cash outflow is done and funds are raised in advance to make sure that net cash outflows remain less than cash inflows. The buffer is appropriately deployed in suitable investments.

► Operational Risk

Operational risk is "the risk of a change in value caused by the fact that actual losses, incurred for inadequate or failed internal processes, people and systems, or from external events (including legal risk), differ from the expected losses". It can be sub divided into the following categories:

- **Compliance risk** is defined as the risk of legal sanctions, material financial loss, or loss to reputation, the Company may suffer as a result of its failure to comply with laws, its own

regulations, code of conduct, and standards of best /good practice. In case of LIC HFL, the Company is regulated by NHB, registered with ROC and its equity shares are listed on the Bombay Stock Exchange Limited (BSE), National Stock Exchange of India Limited (NSE) and the Luxembourg Stock Exchange, making it imperative that the Company follows all the applicable laws. In order to deal with the same, the Company has a designated Compliance Officer whose role entails complying with the statutory requirements of the Company.

- **Legal risk** is the cost of litigation due to cases arising out of lack of legal due diligence. Litigation can also arise out of failure or frauds in project delivery. For LIC Housing Finance Limited, the main business is of lending money for/against mortgage loans and is therefore exposed to legal risk. For handling the same, there are robust legal systems for title verification and legal appraisal of related documents. The Company also has standards of customer delivery and the operational mechanism to adhere to such standards aimed at minimum instances of customers' grievances.
- **Accounting risk** is the risk that an error in accounting practice will necessitate a statement of earnings, which adversely affects the investors or customers' perception of the company. The accounting transactions are consolidated through IT system to prevent errors and omission. The Company presents a fair and transparent view through its financial statement and should disclose the opinion of statutory auditors in the Annual Report as per the prescribed format by SEBI.

The Company is aware that Operational risk events may affect client satisfaction, reputation of the Company and shareholder value and therefore considers imperative to manage the same through appropriate mechanism.

► Regulatory Risk

Regulatory risk is the risk that a change in laws and regulations will materially impact the company. Changes in law or regulations made by the government or a regulatory body can increase the costs of operating the business, and/or change the competitive landscape. The regulatory risk can arise due to change in prudential rules/norms by the regulators viz; NHB, SEBI, RBI etc. The Company is able to mitigate the same by anticipating the likely regulatory changes that may come in the short and medium term and is able to quickly change its systems and practice store align itself with the changed regulatory framework from time to time as required.

Management Discussion And Analysis Report

► Competition Risk

Competition Risk is the risk to the market share and profitability arising due to competition. It is present across all the businesses and across all the economic cycle with the intensity of competition risk varying due to several factors, like, barriers to entry, industry growth potential, degree of competition, etc.

Housing Finance business is on an upward trajectory, perhaps due to growing economy, increased urbanization, government incentives, acceptability of credit in society and rise in nuclear families. With the result, the Housing Finance industry has seen a higher growth rate than overall economy and several other industries since past several years. This has attracted lot of companies in the market thereby increasing competition among the existing companies to maintain/grow market share and profitability. The Company is able to mitigate this risk by addressing to the customer needs with state of art infrastructure including IT interface aligning its practices with the market in order to attract customers and at the same time retain the existing ones. The Company has also been able to sense pulse of peer group in terms of their product offerings, pricing and other schemes and is better poised to meet the challenges through improved product offerings, prices and customer service.

Asset Liability Management:

The Company follows 'The Asset Liability Management System for Housing Finance Companies – Guidelines' issued by NHB. The Company has in place Board approved Risk management policy. The policy specifies the prudential gap limits and the tolerance limits and the reporting mechanism. The Asset Liability Management (ALM) reports are periodically reviewed by Asset Liability Committee (ALCO) and ALCO in turn apprises the Board on ALM issues periodically.

The average loan to value is in the range of 50-60 percent (as against the regulatory limit of 90 per cent for loans upto ₹ 20 lakh and 80 percent for loans above ₹ 20 lakh and upto ₹ 75 lakh and 75 percent for loans above ₹ 75 lakh) and its instalment to income ratio ranges between 30-40 percent, both being amongst the lower ones in the industry. The low average ticket size of the loan of ₹ 20 lakh and pan India spread of business adequately disperses the risk.

The Company has one of the best recovery machineries in its category, to address NPAs, supported by legislations such as SARFAESI Act.

Internal Control Systems & their Adequacy

The Company has internal audit system which is effective and commensurate with the size of its operations. Adequate records and documents are maintained as required by law

from time to time. Internal audits and checks are regularly conducted and internal auditor's recommendations are considered for improving systems and procedures. The Company's Audit Committee reviews the internal control system and looks into the observations of the statutory and internal auditors. During the year, various guidelines/circulars were issued on the operational side to ensure better credit appraisal, as a result of which quality of portfolio should further improve during the years to come.

Discussion of Financial Performance with respect to Operational Performance Financial / Fund Management

The Company's borrowing is planned taking into consideration ALM gaps, interest rate mismatches and the prevailing market conditions. LIC Housing Finance has got highest rating for bank borrowings, non-convertible debentures, commercial paper and public deposit scheme from CRISIL / CARE rating agencies, which has helped the Company to procure funds at very competitive rates.

The prime lending rate of the Company is regularly reviewed and revised as it is a benchmark for asset pricing. Since more 85 percent of the asset portfolio is on the floating/fix-o-floating rate, the Company re-prices the loan assets consequent upon the revision in prime lending rate of the company at specified intervals.

The Company also reviews the fund position on daily basis and parks surplus funds in liquid mutual fund schemes, fixed deposits as per the Board approved policy with an objective of reducing the negative carry to the extent possible.

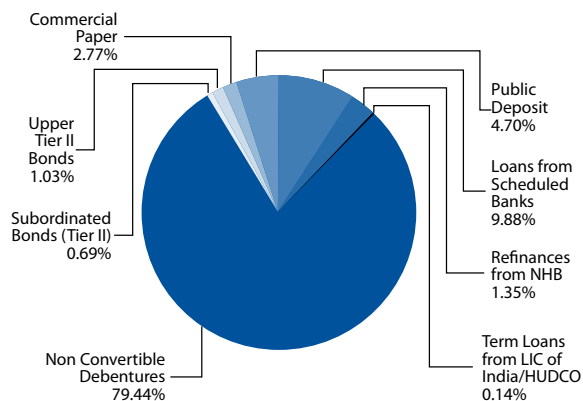

The derivative contracts selectively entered into by the Company to manage risks associated with interest rate movement are regularly monitored and the Company unwinds such transaction at the appropriate time.

The composition of outstanding borrowings as on 31st March, 2018 & the ratings assigned by rating agencies is as under:

Particulars	Percent to total Borrowing	Rating
Loans from Scheduled Banks	9.88%	CRISIL AAA/Stable & CRISIL A+
Refinances from NHB	1.35%	-
Term loans from LIC of India / HUDCO	0.14%	-
Non-Convertible Debentures	79.44%	CRISIL AAA/Stable & CARE AAA
Subordinated Bonds (Tier II)	0.69%	CRISIL AAA/Stable & CARE AAA
Upper Tier II Bonds	1.03%	CRISIL AAA/Stable & CARE AAA

The management perspective about future of the Company

As most of us are aware, 'Housing for All by 2022' is a Government of India initiative under which, the erstwhile Indira Awas Yojana was renamed as Pradhan Mantri Awas Yojana Grameen and another scheme as Pradhan Mantri Awas Yojana Urban was launched in 2015. Under both these schemes a total of 50 million houses were targeted to be built by financial year 2022. The government's budgetary support for these schemes has risen from ₹ 11,600 Crore in FY 2016 to ₹ 29,043 Crore in FY 2018. In India, there is an estimated shortage of around 4 Crore houses (urban and rural). In addition, population growth of 1.3 percent per annum, favourable demographics, 'nuclearisation' of families, migration to urban areas, fiscal benefits and rising income / aspirations, all these could lead to another one Crore per annum demand for houses. Affordability to buy houses has increased over the past three years (especially in urban areas), even as property prices have remain flat, incomes have risen and mortgage rates have fallen by around 250 bps from five-year peak leading to 15 percent reduction in EMI payments.

The middle-class Indian living in cities has long been dreaming of buying his / her own home and usually, ends up striving to realise this dream. Affordability is a major hindrance that prevents them from attaining the goal. In the 2018-19 union budget, the government of India has now made this struggle easier by setting up the Affordable Housing Fund (AHF). The AHF is huge step as the government will provide each buyer linked credit worth ₹ 1 lakh to ₹ 2.30 lakh; this loan will be provided at an interest rate of 6.5 percent against the current market housing interest which is hovering around 8.35% to 8.70%.

NOTE ON INTERNAL FINANCIAL CONTROL

1. **Background:** As per the Section 134(5)(e) of the Companies Act 2013, The Directors' Responsibility Statement referred to in sub-section (3)(c) shall state that —“the directors, in the case of a listed company, had laid down internal financial controls to be followed by the company and that such internal financial controls are adequate and were operating effectively.”
Explanation: For the purposes of this clause, the term “internal financial controls” means the policies and procedures adopted by the company for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information.
2. **Policies and Procedures:** The Company has laid down relevant policies and procedures. As part of the Internal Control Framework (ICF), the Company has in place, standard operating procedures (SOP) covering the key activities / functions / processes (Retail Loans, Project Loans, Borrowings, Treasury, Accounting, etc.
3. **Compliance Reporting:** The Company has in place process to ensure compliance with the provisions of all applicable laws and the same is reported in the form of quarterly compliance reports by the process owners to the MD & CEO / Audit Committee / Board.
4. **Risk Management System:** The Company has in place a Risk Management Policy which provides a framework to address the risk faced by the Company on a sustainable basis. The risk management function within the Company is responsible for review of existing risks and identifying potential risks and risk mitigation measures. There is a system of quarterly / half-yearly reporting to the Risk Management Committee / Audit Committee / Board.
5. **Internal Audit System:** The Internal Audit process determines the existence, adequacy, effectiveness and adherence to the Company's internal controls, besides review of processes, adherence to SOPs and compliance with statutory provisions/ regulatory guidelines. The internal audit of Back Offices is conducted by the Internal Audit Department and Internal audit of Corporate Office is conducted by an independent firm of Chartered Accountants.
6. **Adequacy and Effectiveness of Internal Financial Control:** The Standard Operating Procedures, Compliance Reporting, Risk Management System and Internal Audit System adopted by the Company facilitate orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information. All these ensure that Internal Financial Controls within the Company are adequate and operating effectively.

To The Board's Report

LIC Housing Finance Limited

Related Party Transaction Policy and Procedures

Policy:

LIC Housing Finance Limited recognises that Related Party Transactions present a potential or actual risk of conflicts of interest (or the perception thereof) and therefore the Company has adopted this policy, under which all Related Party Transactions will be subject to approval or ratification in accordance with the procedures set forth in this policy.

Definitions:

Related Party: [Section 2(76)]

With reference to Company, Related Party would mean and include the following:

- i) A director or his relative;
- ii) Key managerial personnel or their relative;
- iii) A firm in which a director / manager or his relative is a partner;
- iv) A private company in which a director or manager is a director or holds alongwith his relatives, more than 2% of its paid-up share capital;
- v) A person on whose advice, directions or instructions (except given in professional capacity) a director or manager is accustomed to act;
- vi) A holding / subsidiary or associate company, subsidiary's subsidiary and such person as would be prescribed.

Relative: [Section 2(77)]

For the purpose of this policy and pursuant to Rule 4 of the Companies (Specification of Definitions, Details) Rules, 2014 provides that a person shall be deemed to be the relative of another if he or she is related to another in the following manner, namely:

- i) Father (including step father);
- ii) Mother (including step mother);
- iii) Son (including step-son);
- iv) Son's wife;
- v) Daughter;
- vi) Daughter's husband;
- vii) Brother (including step-brother);
- viii) Sister (including step-sister).

Related Party Transaction [Section 188] liable to be treated as Related Party Transactions is as set below:

- Sale, purchase or supply of any goods or materials;
- Selling or otherwise disposing of, or buying, property of any kind;
- Leasing of property of any kind;

- Availing or rendering of any services;
- Appointment of any agent for purchase or sale of goods, materials, services or property;
- Such related party's appointment to any office or place of profit in the Company, its subsidiary company or associate company;
- Underwriting the subscription of any securities or derivatives thereof, of the Company.

Key Managerial Personnel: [Section 2(51)]

In relation to a company, Key Managerial Personnel means the following:

- i) The Chief Executive Officer or the Managing Director or the Manager;
- ii) The Company Secretary;
- iii) The Whole-time director;
- iv) The Chief Financial Officer; and
- v) Such other officer as may be prescribed.

For the purpose of this policy, a Related Party Transaction is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which the Company (including any of its subsidiaries or associate) was, is or will be a participant and the amount involved exceeds 10% of the networth or 10% of turnover and in which any Related Party (as defined above) had, has or will have a direct or indirect interest.

It may be mentioned here that the word 'material' is omitted from this definition so that the Audit Committee can assess the materiality of a Related Party's interest in the transaction, rather than management or employees in their determination of whether a transaction fall under the policy.

While the Audit Committee has historically monitored related party transactions, Company may determine that Nomination and Remuneration Committee may be better suited to administer this policy, atleast with respect to directors, as these matters are relevant to the independent determinations.

Procedures:

The Audit Committee of the Board of Directors of the Company will review the relevant facts and circumstances of each Related Party Transaction, including if the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party and the extent of the Related Party's interest in the transaction, take into account the conflicts of interest and either approve or disapprove the Related Party Transaction. Any Related Party Transaction that would be entered into and would continue only if the Audit Committee has approved or ratified such transaction in accordance with the guidelines set forth in this policy. If advance approval of a Related Party Transaction by

Annexure 3 To The Board's Report

the Audit Committee, is not practicable, then the transaction may be preliminarily entered into by management subject to ratification of the transaction by the Audit Committee at the Audit Committee's next regularly scheduled meeting; provided that if ratification is not done, management will make all reasonable efforts to cancel or annul such transaction.

All Related Party Transactions shall require prior approval of the Audit Committee. The Audit Committee may grant omnibus approval for Related Party Transactions proposed to be entered into by the Company subject to the following conditions:

- a. The Audit Committee shall lay down the criteria for granting omnibus approval in line with the policy on Related Party Transactions of the Company and such approval shall be applicable in respect of transactions which are repetitive in nature;
- b. The Audit Committee shall satisfy itself the need for such omnibus approval and that such approval is in the interest of the Company;
- c. Such omnibus approval shall specify the following:
 - Name(s) of the Related Party;
 - Name of the transaction;
 - Maximum amount of transaction that can be entered into;
 - The indicative base price / current contracted price and the formula for variation in the price, if any, and;
 - Such other conditions as the Audit Committee may deem fit.
- d. In such cases where the need for Related Party Transactions cannot be foreseen and details as required above are not available, the Audit Committee may grant omnibus approval for such transactions subject to their value not exceeding ₹ 10 Crore per transaction;
- e. The Audit Committee shall review, atleast on a quarterly basis, the details of Related Party Transactions entered into by the Company pursuant to each of the omnibus approval given;
- f. Such omnibus approval shall be valid for a period not exceeding one year and shall require fresh approval after the expiry of one year.

The Audit Committee will have the discretion to recommend / refer any matter relating to the Related Party Transactions to the Board for the approval.

Management will present to the Audit Committee each proposed Related Party Transaction, including all relevant facts and circumstances, and will update the Audit Committee as to any material changes to an approved or ratified Related Party Transaction and will provide a status report annually at a regularly scheduled meeting of the Audit Committee, of all then current Related Party Transactions.

No director shall participate in approval of a Related Party Transaction for which he or she is a Related Party.

Approval of Board of Directors:

All the Related Party Transactions under Section 188 of the Companies Act, 2013 shall be approved by the Board of Directors of the Company; however this provision will not apply to the transactions entered into by the Company in its ordinary course of business other than transactions which are not on an arm's length basis.

Factors / Criteria to be considered while granting approval to Related Party Transactions:

The Audit Committee / Board will consider the following factors, among others, to the extent relevant to the Related Party Transactions while granting its approval:

- a. Whether the terms of the Related Party Transaction are fair and on arms length basis to the Company and would apply on the same basis if the transaction did not involve a Related Party;
- b. Whether there are any compelling business reasons for the Company to enter into a Related Party Transaction and the nature of alternative transactions, if any;
- c. Whether the Related Party Transaction would affect the independence of an independent director;
- d. Whether the transaction qualifies to be a transaction in ordinary course of business;
- e. Whether the proposed transaction includes any potential risk issues, that may arise as a result of or in connection with the proposed transaction;
- f. Whether the Related Party Transaction would present an improper conflict of interest for any director or key managerial personnel of the Company, taking into account the terms and size of the transaction, the purpose and timing of the transaction, the overall financial position of the director or other Related Party, the direct or indirect nature of the director's, key managerial personnel's or other Related Party's interest in the transaction and the ongoing nature of the any proposed relationship and any other factors the Board / Committee deems relevant.

Annexure 3

To The Board's Report

Pre-Approved Transactions:

The Audit Committee has reviewed and pre-approved each of the following types of Related Party Transactions, which will be deemed to be approved or ratified, as applicable under this policy:

1. Managerial Remuneration
 - a) To Managing Director & CEO if the remuneration is required to be reported / circulated to the shareholders pursuant to requirement of the Companies Act, 2013 and such remuneration has been approved, or recommended to the Company's Board of Directors for approval, by Nomination and Remuneration Committee of the Board of Directors of the Company; or

DIVIDEND DISTRIBUTION POLICY

INTRODUCTION

Normally Companies do not distribute entire profit earned amongst the shareholders. Part of profit is ploughed back or held back as retained earnings and only part of the profit gets distributed to the shareholders. The part that is distributed is the dividend. Dividends are declared at the Annual General Meeting of the shareholders based on the recommendation by the Board of Directors of the Company.

Dividend policy of a Company is the strategy followed to decide the amount of dividends and the timing of the payments. There are various factors that frame a dividend policy of the Company. Availability of better investment opportunities, estimated volatility of future earnings, tax considerations, financial flexibility, legal restrictions, profitability, stability of dividend payout and retained earnings, liquidity and cash flows, investment variables and financial variables, financial leverage, last year's dividend, regulations, industry growth rate and capital investment needs.

DIVIDEND DISTRIBUTION POLICY OF LIC HOUSING FINANCE LIMITED

The Board of Directors (the "Board") of LIC Housing Finance Limited (the "Company") has adopted the Dividend Distribution Policy (the "Policy") of the Company as required in terms of Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "Listing Regulations").

EFFECTIVE DATE

The Policy has become effective from the date of its adoption by the Board i.e. 16.01.2017.

PURPOSE:

The Securities and Exchange Board of India ("SEBI") vide its Notification dated July 08, 2016 has amended the Listing Regulations by inserting Regulation 43A in order to make it mandatory to have a Dividend Distribution Policy in place by the top five hundred listed companies based on their market capitalization calculated as on the 31st day of March of every year. The Company being one of the top five hundred listed companies as per the market capitalization as on the last day of the immediately preceding financial year, the Board of the Company recognized the need to lay down a broad framework for considering decisions by the Board of the Company, with regard to distribution of dividend to its shareholders and/ or retaining or ploughing back of its profits. The Policy also sets out the circumstances and different factors for consideration by the Board at the time of taking such decisions of distribution or of retention of profits, in the interest of providing transparency to the shareholders.

OBJECTIVES:

Objective of Dividend Distribution policy of the Company would be to define policy and procedures in relation to the calculation, declaration, settlement of dividend and time period within which dividend payments would be made to its shareholders. There are various financial parameters, external and internal factors which are considered in forming the Dividend Distribution Policy for the Company.

To ensure that the Company has sufficient distributable profits and / or general reserves, as determined by a review of the Company's audited financial statements, prior to any declaration and / or payment of dividend.

Declaration of dividend on the basis of parameters in addition to the elements of this Policy or resulting in amendment of any element of the Policy will be regarded as deviation. Any such deviation on elements of this Policy in extraordinary circumstances, when deemed necessary in the interests of the Company, along with the rationale will be disclosed in the Annual Report by the Board of Directors.

The Policy reflects the intent of the Company to reward its shareholders by sharing a portion of its profits after retaining sufficient funds for growth of the Company. The Company shall pursue this Policy, to pay, subject to the circumstances and factors enlisted hereon, progressive dividend, which shall be consistent with the performance of the Company over the years.

SCOPE, LAW AND REGULATION OF DIVIDEND:

The declaration and payment of dividend shall be governed by various provisions of the Companies Act, 2013 and most importantly chapter - VIII from section 123 to 127 which deals with "*Declaration and payment of dividend*"; The Companies (Declaration and Payment of Dividend) Rules, 2014 ; Investor Education and Protection Fund (Awareness and Protection of Investors) Rules, 2001; SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015; Section 27 of Security Contract Regulation Act, 1956; Income Tax Act, 1961; Secretarial Standards on Dividend (SS-3); NHB Guidelines / Circulars / Notifications, FEMA 1999, SEBI Guidelines / Circulars etc. as amended from time to time and to the extent applicable.

The Company will adhere to the provisions of Law as stated in above para, as amended from time to time and to the extent applicable.

The policy set out herein generally relates to final Dividend, certain principles also apply to Interim Dividend declared by the Board of Directors, as stated hereinafter.

Trading Window: In terms of regulation 2(1)(n) of SEBI (Prohibition of Insider Trading) Regulations, 2015, declaration of dividends (interim or final) shall be treated as "Unpublished Price Sensitive Information" hence company shall comply with

Annexure 8

To The Board's Report

norms / compliances of trading window read with company's Insider Trading Policy viz. Code of internal procedures and conduct for regulating, monitoring and reporting of trading by insiders pursuant to regulation 9(1) and Schedule B of the SEBI (Prohibition of Insider Trading) Regulations, 2015.

Secretarial Standards: The Company will comply with Secretarial Standards as and when the Secretarial Standards are notified and enforced by the Ministry of Corporate Affairs.

Right / Title to dividends: It shall be governed by Section 27 of Security Contract Regulation Act, 1956 and other applicable laws, rules and regulation as amended and enforced from time to time.

The Policy shall not apply to:

Determination and declaring dividend on preference shares, if any, issued in future as the same will be as per the terms of issue approved by the shareholders;

Distribution of dividend in kind, i.e. by issue of fully or partly paid bonus shares or other securities, subject to applicable law(s);

Distribution of cash as an alternative to payment of dividend by way of buyback of equity shares.

However, the Board reserves the right to modify this policy to accommodate the preference shares or make a separate policy for preference shares in accordance with applicable provisions of the law as stated in above para as and when it deems fit and necessary.

I. GENERAL TERMS

The general considerations of the Company for taking decisions with regard to dividend payout or retention of profits shall be as follows:

The management would discuss and recommend to the Board on dividend payment, considering the circumstances or factors but not limited to the following:

- a) Future expansion plans;
- b) Profit earned during the current financial year;
- c) Overall financial conditions;
- d) Cost of raising funds from alternative sources;
- e) Applicable taxes; (including dividend distribution tax)
- f) Money market conditions;
- g) Macro-economic situations, etc.
- h) Investor's expectation and other relevant factors.

The dividends are declared at the Annual General Meeting of the Company, based on recommendations of the Board.

Free Reserves:

The word "Free reserves" has been defined by Section 2(43) of Companies Act, 2013 to mean such reserves which, as per the latest audited balance sheet of a company, are available for

distribution as dividend. However the following shall not be treated as free reserves:

any amount representing unrealized gains, notional gains or revaluation of assets, whether shown as a reserve or otherwise, or any change in carrying amount of an asset or of a liability recognized in equity, including surplus in profit and loss account on measurement of the asset or the liability at fair value, shall not be treated as free reserves.

Clause 2(1)(l) of the NHB Directions 2010 defines "Free reserves" to include the balance in the share premium account, capital and debenture redemption reserves and any other reserve shown or published in the balance sheet of the company and created through an allocation of profits, not being (1) a reserve created for repayment of any future liability or for depreciation in assets or for bad debt or (2) a reserve created by revaluation of the assets of the Company;

Interim dividend:

The Board of Directors of a company may declare interim dividend during any financial year out of the carried forward profit & or out of profits of the financial year in which such interim dividend is sought to be declared. In case the company has incurred loss during the current financial year up to the end of the quarter immediately preceding the date of declaration of interim dividend, such interim dividend shall not be declared at a rate higher than the average dividends declared by the company during the immediately preceding three financial years in terms of Section 123(3) of Companies Act, 2013.

Final Dividend:

It is declared by the members at an Annual General Meeting as "Ordinary Business" in terms of Section 102(2)(ii) of the Companies Act, 2013 only if recommended by the Board of Directors and at a rate not more than what is recommended by the directors in accordance with the Articles of Association of a company.

Powers to SEBI:

Since, the Company is listed on the bourses, Section 24 of the Companies Act, 2013 confers on SEBI, the power of administration of the provisions pertaining to non-payment of dividend. In any other case, the powers remain vested in Central Government.

Dividend Payout Ratio:

The dividend payout ratio measures the percentage of Net Profit (PAT) that is distributed to the shareholders in the form of dividends during the year. In other words, this ratio shows the portion of profits, the company decides to keep to fund operations and the portion of profits that is given to its shareholders. It is calculated by dividing the proposed dividend (excluding taxes on dividend) by the Profit after tax and depreciation.

Annexure 8

To The Board's Report

II. PARAMETERS TO BE CONSIDERED FOR DECLARATION OF DIVIDEND PAY-OUT

The Board shall consider the following, while taking decisions of a dividend payout during a particular year:

1. Dividend shall be declared or paid only out of:
 - I. Current period profit
 - a) after providing for depreciation in accordance with law;
 - b) after transferring to reserves such amount of profits as may prescribed under National Housing Bank Act, 1987, Companies Act, 2013 and the rules made thereunder, Income Tax Act, 1961 or under any other laws or statutes.
 - II. The profit from any previous financial year(s)
 - a) after providing for depreciation in accordance with law; and
 - b) out of the amount available for dividend that remains undistributed after prescribed appropriations have been made; or
 - III. Out of I or II or both
2. Before declaring any dividend, the losses, if any, of any previous year(s) must be set off against the profit of the Company for the current year or previous year.
3. In terms of third proviso of Section 123(1)(b) of the Companies Act, 2013 no dividend shall be declared or paid by a company from its reserves other than free reserves.

III. OTHER FINANCIAL PARAMETERS

In addition to the aforesaid parameters such as realized profits, the decision of dividend payout or retention of profits shall also be based on the following:

1. Income and profitability parameters:
 - I. Net Interest Income (NII);
 - II. Profit Before Tax (PBT) and Profit After Tax (PAT);
 - III. Return on Assets (RoA);
 - IV. Return on Equity (RoE);
 - V. Earnings Per Share (EPS);
 - VI. Profit growth targets and market expectations.
2. Capitalization level parameters:
 - I. Net Owned Funds (NOF);
 - II. Capital Risk Adequacy Ratio (CRAR), Tier I capital and Tier II capital;
 - III. Gross leverage and net leverage.

3. Portfolio quality parameters:
 - I. Absolute values of gross NPA and net NPA
 - II. Gross NPA and net NPA as percentage of loan assets
 - III. Provisioning levels and provision coverage
 - IV. Change in regulatory provisioning requirements
 - V. Outlook on portfolio quality

IV. FACTORS THAT MAY AFFECT DIVIDEND PAYOUT

A. External Factors

Taxation and other regulatory concern

- Dividend distribution tax or any tax deduction at source as required by applicable tax regulations in India, as may be applicable at the time of declaration of dividend.
- Any restrictions on payment of dividends by virtue of any regulation as may be applicable to the Company at the time of declaration of dividend.

Product/ market expansion plan

The Company's growth oriented decision to conserve cash in the Company for future expansion plan impacts shareholders expectation for the long run which shall have to be considered by the Board before taking dividend decision.

Macroeconomic conditions

Considering the state of economy in the country, the policy decisions that may be formulated by the Government / regulator and other similar conditions prevailing in the market which may have a bearing on or affect the business of the Company, the management may consider retaining a larger part of the profits to have sufficient reserves to absorb unforeseen circumstances.

Various macroeconomic factors like GDP growth rate, inflation rate, government policies (especially related to housing), industry specific factors like demand for housing, real estate scenario, etc. would be considered by the Company in finalizing the recommendation of dividend

B. Internal Factors

The Board and Management may decide to utilize its profit for

- i. Business expansion and growth;
- ii. Capital expenditure;
- iii. Upgradation of technology and physical infrastructure;
- iv. Creation of contingency fund;
- v. Acquisition of brands and businesses;

Growth outlook for the housing sector and competition intensity may result in margin pressures and result in need to shore up equity capital levels to strengthen operational leverage.

Annexure 8

To The Board's Report

Present liquidity scenario and outlook for the same is the most important factor for any finance company. The Company being in the lending business, it relies on its ability to raise funds efficiently to undertake its lending activities. If the liquidity scenario is poor or if the outlook is adverse, then the Company may choose to hold back dividend pay-outs to shore up equity capital levels.

Being in financial sector, the Company is subject to operational risk, fraud risk, regulatory risk, and legal risk. Incidence of substantial loss from these risks may impact dividend pay-outs.

V. CIRCUMSTANCES UNDER WHICH DIVIDEND PAYOUT MAY OR MAY NOT BE EXPECTED

The Board shall consider the factors provided above under Para II, III and IV, before determination of any dividend payout after analyzing the prospective opportunities and threats, viability of the options of dividend payout or retention etc. The decision of dividend payout shall, majorly be based on the aforesaid factors considering the balanced interest of the shareholders and the Company.

VI. DECLARATION OF DIVIDEND IN THE EVENT OF INADEQUACY OR ABSENCE OF PROFITS IN ANY YEAR

Declaration of dividend out of accumulated profits: In terms of second proviso of Section 123(1) of the Companies Act, 2013 where, owing to inadequacy or absence of profits in any financial year, any company proposes to declare dividend out of the accumulated profits earned by it in previous years and transferred by the company to the reserves, such declaration of dividend shall not be made except in accordance with the Companies (Declaration and Payment of Dividend) Rules, 2014.

In terms of Rule 3 of the Companies (Declaration and Payment of Dividend) Rules, 2014 as amended from time to time, in the event of inadequacy or absence of profits in any year, the Company may declare dividend out of free reserves subject to the fulfillment of the following conditions, namely:—

- (1) The rate of dividend declared shall not exceed the average of the rates at which dividend was declared by it in the three years immediately preceding that year:
Provided that this sub-rule shall not apply to a company, which has not declared any dividend in each of the three preceding financial years.
- (2) The total amount to be drawn from such accumulated profits shall not exceed one tenth of the sum of its paid-up share capital and free reserves as appearing in the latest audited financial statement.
- (3) The amount so drawn shall first be utilised to set off the losses incurred in the financial year in which dividend is to be declared before any dividend in respect of equity shares is declared.
- (4) The balance of reserves after such withdrawal shall not fall below fifteen per cent of its paid up share capital as appearing in the latest audited financial statement.

- (5) No Company shall declare dividend unless carried over previous losses and depreciation not provided in previous year are set off against profit of the Company of the current year the loss or depreciation, whichever is less, in previous years is set off against the profit of the Company for the year for which dividend is declared or paid.

VII. MANNER OF DIVIDEND PAYOUT

The discussion below is a summary of the process of declaration and payment of dividends, and is subject to applicable regulations:

Independent Auditors' Report

TO THE MEMBERS OF LIC HOUSING FINANCE LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of LIC HOUSING FINANCE LIMITED (hereinafter referred to as "the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in sub-section 5 of the section 134 of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order under sub-section 11 of Section 143 of the Act.

We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, specified under sub-section 10 of Section 143 of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the Auditors' judgment, including the assessment

of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2018, its profits, and its cash flows for the year ended on that date.

Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of LIC Housing Finance Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the Institute of Chartered Accountants of India and specified under sub-section 10 of Section 143 of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditors' judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

ANNEXURE 'B'

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

Independent Auditors' Report

TO THE BOARD OF DIRECTORS OF LIC HOUSING FINANCE LIMITED

Report on Compliance with the Housing Finance Companies (NHB) Directions, 2010

This report is issued in terms of our audit engagement with LIC Housing Finance Limited ("the Company") as joint statutory auditors. Pursuant to the Paragraph 2 of the Housing Finance Companies – Auditor's Report (National Housing Bank) Directions, 2016 ("the Auditor's Report Directions"), we have examined the matters specified in the Paragraph 3 of these Directions in respect of the Company for the year ended March 31, 2018.

Management's Responsibility

The Management of the Company is responsible for compliance with the extant Housing Finance Companies (NHB) Directions, 2010 ("the Directions") on an ongoing basis and reporting non-compliance, if any, to the regulatory authority, Board of the company and its Audit committee. This responsibility also includes (a) preparation and maintenance of proper accounting and other records as per the external and internal requirements (b) the design, implementation and maintenance of adequate internal procedures / systems / processes / controls relevant to the creation and maintenance of the aforesaid records. Further, this responsibility includes ensuring that the relevant records provided to us for our examination are correct and complete.

Auditors' Responsibility

Our responsibility is to express reasonable assurance in the form of an opinion based on our examination of the books of account and other records maintained by the Company on the matters specified in Paragraph 3 of the Auditor's Report Directions, based on our audit.

We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, specified under sub-section 10 of Section 143 of the Companies Act, 2013. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether there are any identified non-compliances.

An audit involves performing procedures to obtain audit evidence about the compliance with the Directions. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the information and records, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Company's compliance with the Directions in order to design audit procedures that are appropriate in the circumstances. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

We conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes

("the Guidance Note") issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) -1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

Based on the examination, as above and information & explanations given to us, we are of the opinion that:

Notes Forming Part Of The Standalone Financial Statements For The Year Ended March 31, 2018 (Contd.)

Note: 27

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

SIGNIFICANT ACCOUNTING POLICIES

a. Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention on accrual basis of accounting and in accordance with accounting principles generally accepted in India. The financial statements comply in all material aspects with the Accounting Standards specified under Section 133 of the Companies Act, 2013 (the Act), read with the Rule 7 of the Companies (Accounting Standards) Rules, 2014, read with amendment rules and relevant provisions of the Companies Act, 2013 (to the extent notified), National Housing Bank Act, 1987 and the Housing Finance Companies (NHB) Directions, 2010 as amended.

Accounting Policies not specifically referred to otherwise, followed by the Company are consistent with the generally accepted accounting principles.

b. Use of Estimates

The preparation of financial statements requires the Management to make estimates and assumptions considered in the reported balances of assets and liabilities (including contingent liabilities) as of the date of the financial statements and the reported income and expenses during the reporting period. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.

c. Revenue Recognition

Interest on Loans

Repayment of Loans is generally by way of Equated Monthly Installments (EMI) comprising of principal and interest or by way of proceeds of Life Insurance Policies where interest is collected in monthly installment. Necessary appropriation is made out of these EMI collections to principal and interest. Interest income is recognized on accrual basis except in case of Non Performing Assets (NPA) where interest is accounted on realization.

Fees and additional interest income on delayed EMI/Pre-EMI are recognized on receipt basis.

Income from Investments

Interest income on debt investments like Non Convertible Debentures (NCD), Inter Corporate Deposits (ICD), Bank Deposits, Government Securities is recognized on accrual basis and Dividend income is accounted for in the year in which the same is declared in Annual General Meeting and Company's right to receive payment is established.

Other Income

In other cases, income is recognized when there is no significant uncertainty as to determination and realization.

d. Property, Plant and Equipment

Property, Plant and Equipment are stated at cost of acquisition, or construction inclusive of expenses incidental thereto less accumulated depreciation and impairment loss, if any.

Depreciation in respect of assets is provided on the Straight Line Method as per the useful life of the assets as prescribed in Schedule II of the Act, except in respect of Vehicles (Motor cars) where useful life is estimated as 5 years.

Cost of leasehold improvements is amortized over the period of the lease.

Depreciation on assets whose cost individually does not exceed upto ₹ 5,000/- is fully provided in the year of purchase.

e. Intangible Assets

Intangible assets are stated at cost of acquisition, including any cost attributable to bringing the same to its working condition, less amortization over estimated useful life.

Software is amortized on Straight Line Method over 5 years.

f. Impairment Loss

Impairment loss is provided to the extent the carrying amount of assets exceed their recoverable amounts. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

g. Loans and Provision thereon

The loans given by the company are initially recorded in the books of account at the principal amounts disbursed to the borrowers and are subsequently adjusted for further disbursements / repayments. The loans are classified as Non-performing Assets (NPA) under Substandard / Doubtful / Loss categories as per the prudential norms prescribed under the Housing Finance Companies (NHB) Directions, 2010, (the "NHB Directions") as amended. The provision on Standard and NPA loan accounts is made as per the aforesaid prudential norms. Additional provision (over and above the prudential norms), if required, is made as per the guidelines approved by the Board of Directors from time to time. The loans and provisions thereon are classified into current and non-current categories based on the operating cycle of 12 months as identified by the Company.

h. Investments

Investments are classified as Current Investment and Long term Investment. Current investment is an investment that is by its nature readily realisable and is intended to be held for not more than one year from the date on which such investment is made. A Long term investment is an investment other than a current investment.

In accordance with the Guidelines issued by National Housing Bank (NHB) and the Accounting Standard (AS -13) – "Accounting for Investments" notified under the relevant provisions of the Act, current investments are carried at lower of cost & fair value and long-term investments are carried at cost. However, provision is made to recognize decline other than temporary in the carrying amount of long-term investments. Unquoted investments in the units of mutual funds in the nature of current investments are valued at the net asset value declared by mutual funds in respect of each particular scheme as per the guidelines issued by the NHB. The premium paid on acquisition of Investments is written off in the year of purchase.

i. Employee Benefits

Defined Contribution Plan

Provident Fund

Contribution as required by Statute paid to the Government Provident Fund and also contribution paid to other recognized Provident Fund Trust is debited to the Statement of Profit and Loss.

Defined Benefit Plan

Gratuity

- Gratuity liability is a defined benefit obligation for employees. The Company has taken Group Gratuity-cum-Life Insurance Policy from Life Insurance Corporation of India (LIC) for employees other than those are under deputation from LIC. Accordingly, the Company accounts for liability for future gratuity benefits based on actuarial valuation carried out at the end of each financial year and the Contribution paid to LIC is charged to the Statement of Profit and Loss. Actuarial gain or losses arising from changes in actuarial assumptions are immediately recognized in the Statement of Profit and Loss in the period in which they arise.
- In respect of employees under deputation from LIC, an amount equal to five percent of aggregate of basic salary and dearness allowance of such employees, paid / payable to LIC is charged to the Statement of Profit and Loss and is treated as a defined contribution obligation.

Short-Term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

Long-Term Employee Benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

j. Foreign Currency Transactions

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transactions.

In case of forward exchange contracts or other financial instruments that is in substance a forward exchange contract, other

than for trading or speculation purposes, the premium or discount arising at the inception of the contract is amortized as expense or income over the life of the contract.

Gains / losses on settlement of transactions arising on cancellation / renewal of forward exchange contracts are recognized as income or expense.

At the reporting date, monetary assets and liabilities denominated in foreign currency are reported using the closing rate of exchange. Exchange difference arising thereon and on realization / payments of foreign exchange are accounted as income or expense in the relevant year.

k. Derivative Transactions

SWAP transactions are considered off-balance sheet items and the outstanding SWAP trades are disclosed at the fair value on the reporting date. The carrying amount (difference between coupon rate liability and SWAP contract rate) is accounted on an accrual basis and the same is adjusted against the interest cost of the underlying liability. Gain realized on early termination of SWAP is amortized over the balance tenure of the SWAP or underlying liability whichever is less. Loss if any on early termination is charged to the Statement of Profit and Loss in the same year.

l. Borrowing Costs

Borrowing costs include interest and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

m. Zero Coupon Instrument

The difference between the discounted amount mobilized and redemption value of Commercial Papers/ Zero Coupon Bond/ NCD is apportioned on time basis over the life of instrument and charged in the Statement of Profit and Loss.

n. Taxes on Income

Taxes on income are accounted for in accordance with Accounting Standard (AS-22) – “Accounting for Taxes on Income”, notified under the relevant provisions of the Act. Income tax comprises both current and deferred tax.

Current tax is measured on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961.

The tax effect of the timing differences that result between taxable income and accounting income and are capable of reversal in one or more subsequent periods are recorded as a Deferred Tax Asset or Deferred Tax Liability. They are measured using substantially enacted tax rates and tax regulations as of the Balance Sheet date.

In situations where the company has unabsorbed depreciation or carry forward tax losses, all Deferred Tax Assets are recognized, only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits. Deferred Tax Assets on account of other timing differences are recognized only to the extent there is a reasonable certainty of its realization.

o. Provisions and Contingencies

Provisions are recognized when the Company has a legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. Contingent liabilities are disclosed when the Company has a possible or present obligation where it is not probable that an outflow of resources will be required to settle it. Contingent assets are neither recognized nor disclosed.

p. Operating Leases

Assets acquired on lease where significant portions of the risks and rewards incidental to the ownership are retained by the lessors are classified as Operating Leases. Lease rentals are charged to the Statement of Profit and Loss on accrual basis.

q. Securitised Assets

Derecognition of Securitised assets in the books of the Company, recognition of gain or loss arising on Securitisation and accounting for credit enhancement provided by the company is based on the extant guidelines issued by the Institute of Chartered Accountants of India.

Securitized Assets are derecognized in the books of the Company based on the principal of surrender of control over the assets.

Disclosures on Risk Exposure in Derivatives

A. Qualitative Disclosure

The exposure of LICHFL to Derivatives contracts is in the nature of interest Rate Swaps and currency swaps to manage risk associated with interest rate movement and fluctuation in currency exchange rate.

Derivative policy of the Company specifies the exposure norms with respect to single counterparty and the total underlying amount at the time of entering into the new derivative contract.

The Asset Liability Management Committee (ALCO) of the Company oversees efficient management of risk associated with derivative transactions. Company identifies, measures, monitors the exposure associated with derivative transaction. For effective mitigation of risk it has an internal mechanism to conduct regular review of the outstanding contracts which is reported to the ALCO & Risk Management Committee of the Board which in turn reports to the Audit Committee and to the Board of Directors.

The gain realized on early termination of swap is to be amortized over the balance tenor of the swap or underlying liability whichever is less. Loss if any on early termination is to be charged to revenue in the same year. The carry difference, between coupon rate liability and the swap contract rate is to be accounted quarterly on accrual basis

Independent Auditors' Report

TO THE MEMBERS OF LIC HOUSING FINANCE LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of LIC Housing Finance Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates, which comprise of the Consolidated Balance Sheet as at March 31, 2018, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under sub-section 10 of Section 143 of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of the reports of other auditors on separate financial statements of the subsidiaries referred to in sub-paragraph (a) of the Other Matters paragraph below, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates as at March 31, 2018, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matters

- (a) We did not audit the financial statements of four subsidiaries, whose financial statements reflect total assets of ₹ 17,427.60 lakhs as at March 31, 2018, total revenue of ₹ 7,890.01 lakhs, and net cash flows amounting to ₹ 1,590.19 lakhs, for the year ended on that date, as considered in the preparation of the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on the reports of the other auditors.
- (b) The consolidated financial statements include the Group's share of profit of ₹ 244.70 lakhs for the year ended March 31, 2018, as considered in the consolidated financial statements in respect of associates, whose unaudited financial statements/financial information have been

Independent Auditors' Report

furnished to us by the Management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these associates are based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements / financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by sub-section 3 of Section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and associates, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.
 - (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards prescribed under Section 133 of the Act.

- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2018 taken on record by the Board of Directors of the Holding Company and the report of the statutory auditors of its subsidiary companies, none of the directors of any such company is disqualified as on March 31, 2018 from being appointed as a Director of that company in terms of sub section 2 of Section 164 of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our Report in "Annexure A", which is based on the auditors' report of the Holding company and its subsidiary companies. Based on these reports, our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Group's internal financial controls over financial reporting.
- (g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors') Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of subsidiaries, as noted in the "Other Matters" paragraph:
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note 28 (2) to the consolidated financial statements;
 - ii. Provisions has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long- term contracts including derivative contracts; and
 - iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiaries.

ANNEXURE 'A'

Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of LIC HOUSING FINANCE LIMITED ("the Holding Company") as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of the Holding Company as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies and associates companies, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the Institute of Chartered Accountants of India and specified under sub-section 10 of Section 143 of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of

internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor of subsidiary companies in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

ANNEXURE 'A'

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Holding Company and its subsidiary companies, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

Notes Forming Part Of The Consolidated Financial Statements For The Year Ended 31 March, 2018

NOTE: 28**SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS
PRINCIPLES OF CONSOLIDATION:**

1. The consolidated financial statements relate to LIC Housing Finance Limited ("the Company") and its subsidiaries and associates, which together constitute the Group. The consolidated financial statements have been prepared on the following basis :
 - a) The financial statements of the Company and its subsidiary companies are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions resulting in unrealized profits or losses in accordance with Accounting Standard (AS-21) "Consolidated Financial Statements" notified under the relevant provisions of the Companies Act, 2013 (the Act).
 - b) In case of associates, where the Company directly or indirectly through subsidiaries holds more than 20% of equity or exercises significant influence over the investee, investments are accounted for using equity method in accordance with Accounting Standard (AS-23) "Accounting for Investments in Associates in Consolidated Financial Statements" notified under the relevant provisions of the Act.
 - c) The difference between the cost of investment in the subsidiaries / associates and the share of net assets at the time of acquisition of shares in the subsidiaries / associates is identified in the financial statements as Goodwill or Capital Reserve as the case may be.
 - d) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and appropriate adjustments are made to the financial statements of subsidiaries when they are used in preparing the consolidated financial statements that are presented in the same manner as the Company's separate financial statements except for accounting policy followed by a subsidiary, LICHFL Care Homes Limited for amortization of preliminary expenses incurred by the said subsidiaries after April 1, 2003 over a period of ten years as against charging off of such expenses to the Statement of Profit and Loss by the Company.
 - e) The audited financial statements of the subsidiaries and unaudited financial statements of associates are considered for the purpose of consolidation and are drawn up to March 31, 2018. The reporting period of these financial statements is same as the reporting period of the company.
 - f) Minority interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the minority shareholders at the dates on which investments are made by the Company in the Subsidiary Companies and further movements in their share in the equity, subsequent to the dates of the investments as stated above.
2. As required by Accounting Standard (AS-23) "Accounting for Investments in Associates in Consolidated Financial Statements" notified under the relevant provision of the Act, the carrying amounts of investments in Associates is adjusted for post-acquisition change in the Company's share in the net assets of the associates after eliminating unrealized profits or losses, if any.
3. The consolidated financial statements of the Company, its subsidiaries and associates are prepared in accordance with Accounting Standard (AS-21) 'Consolidated Financial Statements' and Accounting Standard (AS-23) - 'Accounting for Investments in Associates in Consolidated Financial Statements' notified under the relevant provisions of the Act.

SIGNIFICANT ACCOUNTING POLICIES

a. Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention on accrual basis of accounting and in accordance with accounting principles generally accepted in India. The financial statements comply in all material aspects with the Accounting Standards specified under Section 133 of the Companies Act, 2013 (the Act), read with the Rule 7 of the Companies (Accounting Standards) Rules, 2014, read with amended rules and the relevant provisions of the Companies Act, 2013 (to the extent notified), National Housing Bank Act, 1987 and the Housing Finance Companies (NHB) Directions, 2010 as amended.

Accounting Policies not specifically referred to otherwise are consistent with the generally accepted accounting principles followed by the Company.

b. Use of Estimates

The preparation of financial statements requires the Management to make estimates and assumptions considered in the reported balances of assets and liabilities (including contingent liabilities) as of the date of the financial statements and the reported income and expenses during the reporting period. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.

c. Revenue Recognition

Interest on Housing Loans

Repayment of Housing Loans is by way of Equated Monthly Installments (EMI) comprising of principal and interest or by way of proceeds of Life Insurance Policies where interest is collected in monthly installment. Necessary appropriation is made out of these EMI collections to principal and interest. Interest income is recognized on accrual basis except in case of Non-Performing Assets (NPA) where interest is accounted on realization.

Fees and additional interest income on delayed EMI/Pre-EMI are recognized on receipt basis.

Income from Investments

Interest income on debt investments like Non-Convertible Debentures (NCD), Inter Corporate Deposits (ICD), Bank Deposits, Government Securities is recognized on accrual basis and Dividend income is accounted for in the year in which the same is declared in Annual General Meeting and Company's right to receive payment is established.

Revenue from Property Development / Construction Projects

Revenue is recognized based on nature of activity when consideration can be reasonably measured and there exists reasonable certainty of its recovery.

- Income from services is recognized on completion of the works/contract.
- Revenue from property development / construction projects activity is recognized by applying percentage of completion method of the contract value basis when reasonable expectation of collection of the sale consideration from the customers exists. Percentage of completion is determined as a proportion of the cost of work performed to date to the total estimated contract costs and the project so determined has been accounted for proportionate to the percentage of the actual work done.
- Interest on delayed payment from customers is booked on cash basis.

Notes Forming Part Of The Consolidated Financial Statements For The Year Ended 31 March, 2018 (Contd.)

Other Income

In other cases, income is recognized when there is no significant uncertainty as to determination and realization.

d. Property, Plant and Equipment / Capital Work in Progress

Property, Plant and Equipment are stated at cost of acquisition, or construction inclusive of expenses incidental thereto less accumulated depreciation and impairment loss, if any.

Cost incurred for land parcel acquisition and all related acquisition expenses are capitalized with Land cost and are grouped under Work in Progress till the time of commencement of development of the project. All pre-operative expenses incurred in respect of the respective projects are grouped under Work in Progress till development of the project commence and are transferred to the Profit & Loss account in the first year of development of the project.

Depreciation in respect of assets is provided on the Straight Line Method as per the useful life of the assets as prescribed in Schedule II of the Act, except in respect of Vehicles (Motor cars) where useful life is estimated as 5 years.

Cost of leasehold improvements is amortized over the period of the lease.

Depreciation on assets whose cost individually does not exceed up to ₹ 5,000/- is fully provided in the year of purchase.

e. Intangible Assets

Intangible Assets are stated at cost of acquisition, including any cost attributable to bringing the same to its working condition, less amortization over estimated useful life.

Software is amortized on Straight Line Method over 5 years.

f. Impairment Loss

Impairment loss is provided to the extent the carrying amount of assets (including goodwill on consolidation) exceeds their recoverable amounts. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

g. Loans and Provision thereon

The loans given by the company are initially recorded in the books of account at the principal amounts disbursed to the borrowers and are subsequently adjusted for further disbursements / repayments. The loans are classified as Non-performing Assets (NPA) under Substandard / Doubtful / Loss categories as per the prudential norms prescribed under the Housing Finance Companies (NHB) Directions, 2010, (the "NHB Directions") as amended. The provision on Standard and NPA loan accounts is made as per the aforesaid prudential norms. Additional provision (over and above the prudential norms), if required, is made as per the guidelines approved by the Board of Directors from time to time. The loans and provisions thereon are classified into current and non-current categories based on the operating cycle of 12 months as identified by the Company.

h. Investments

Investments are classified as Current Investment and Long term Investment. Current investment is an investment that is by its nature readily realizable and is intended to be held for not more than one year from the date on which such investment is made. A Long term investment is an investment other than a current investment.

In accordance with the Guidelines issued by National Housing Bank (NHB) and the Accounting Standard (AS -13) – "Accounting for Investments" notified under the relevant provisions of the Act, current investments are carried at lower of cost & fair value and long term investments are carried at cost. However, provision is made to recognize decline other than temporary in the carrying amount of long term investments. Unquoted investments in the units of mutual funds in the nature of current investments are valued at the net asset value declared by mutual funds in respect of each particular scheme as per the guidelines issued by the NHB. The premium paid on acquisition of Investments is written off in the year of purchase.

Contribution as required by Statute paid to the Government Provident Fund and also contribution paid to other recognized Provident Fund Trust is debited to the Statement of Profit and Loss.

Defined Benefit Plan

Gratuity

- Gratuity liability is a defined benefit obligation for employees. The Company has taken Group Gratuity-cum-Life Insurance Policy from Life Insurance Corporation of India (LIC) for employees other than those are under deputation from LIC. Accordingly, the Company accounts for liability for future gratuity benefits based on actuarial valuation carried out at the end of each financial year and the Contribution paid to LIC is charged to the Statement of Profit and Loss. Actuarial gain or losses arising from changes in actuarial assumptions are immediately recognized in the Statement of Profit and Loss in the period in which they arise.
- In respect of employees under deputation from LIC, an amount equal to five percent of aggregate of basic salary and dearness allowance of such employees, paid / payable to LIC is charged to the Statement of Profit and Loss and is treated as a defined contribution obligation.

Short-term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

Long-term Employee Benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

j. Foreign Currency Transactions

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transactions.

In case of forward exchange contracts or other financial instruments that is in substance a forward exchange contract, other than for trading or speculation purposes, the premium or discount arising at the inception of the contract is amortized as expense or income over the life of the contract.

Gains / losses on settlement of transactions arising on cancellation / renewal of forward exchange contracts are recognized as income or expense.

At the reporting date, monetary assets and liabilities denominated in foreign currency are reported using the closing rate of exchange. Exchange difference arising thereon and on realization / payments of foreign exchange are accounted as income or expense in the relevant year.

k. Derivative Transactions

SWAP transactions are considered off-balance sheet items and the outstanding SWAP trades are disclosed at the fair value on the reporting date. The carrying amount (difference between coupon rate liability and SWAP contract rate) is accounted on an accrual basis and the same is adjusted against the interest cost of the underlying liability. Gain realized on early termination of SWAP is amortized over the balance tenure of the SWAP or underlying liability whichever is less. Loss if any on early termination is charged to the Statement of Profit and Loss in the same year.

l. Borrowing Costs

Borrowing costs include interest and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

m. Zero Coupon Instrument

The difference between the discounted amount mobilized and redemption value of Commercial Papers/ Zero Coupon Bond/ NCD is apportioned on time basis over the life of instrument and charged in the Statement of Profit and Loss.

Notes Forming Part Of The Consolidated Financial Statements For The Year Ended 31 March, 2018 (Contd.)

n. Taxes on Income

Taxes on income are accounted for in accordance with Accounting Standard (AS-22) – “Accounting for taxes on income”, notified under the relevant provisions of the Act. Income tax comprises both current and deferred tax.

Current tax is measured on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961.

The tax effect of the timing differences that result between taxable income and accounting income and are capable of reversal in one or more subsequent periods are recorded as a Deferred Tax Asset or Deferred Tax Liability. They are measured using substantially enacted tax rates and tax regulations as of the Balance Sheet date.

In situations where the company has unabsorbed depreciation or carry forward tax losses, all Deferred Tax Assets are recognized, only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits. Deferred Tax Assets on account of other timing differences are recognized only to the extent there is a reasonable certainty of its realization.

o. Provisions and Contingencies

Provisions are recognized when the Company has a legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. Contingent liabilities are disclosed when the Company has a possible or present obligation where it is not probable that an outflow of resources will be required to settle it. Contingent assets are neither recognized nor disclosed.

p. Operating Leases

Assets acquired on lease where significant portions of the risks and rewards incidental to the ownership are retained by the lessors are classified as operating leases. Lease rentals are charged to the Statement of Profit and Loss on accrual basis.

q. Securitized Assets

De-recognition of Securitized assets in the books of the Company, recognition of gain or loss arising on Securitization and accounting for credit enhancement provided by the company is based on the extant guidelines issued by the Institute of Chartered Accountants of India.

Securitized Assets are derecognized in the books of the Company based on the principle of surrender of control over the assets.
